Stunning! The New Mohair
Bathing
Costumes, 7.50
They give every appearance
of silk. Smart little touches
of wool embroidery trim them
and all are fashioned after the
very popular bathing dress style.
Included are surf satin bathing
suits at the same price—7.50.
All are wonderful values.
Also knitted bathing suits,
athletic style, at 4.95.

Terry Cloth Beach
Capes at 10.00
"Quite the thing"—as Fashion
puts it—and surely included
in the list of beach essentials.
To protect one from sun, wind
—or just for style's sake—
we recommend them. Stunning
colors—each model a super-
value at 10.00.

REICHSTAG IN UPROAR OVER REPARATIONS

Flagship's Great Guns Riddle Targets Six Miles Away.

Salvo from Fourteen-Inch Rifles of New Mexico's After-Turrets in Battle Firing Yesterday.

JAP NAVY PLAN IS BLUFF. FLEET SETS BATTLE MARK.

No Capital Ships Being Built Outside of Nippon; Wait on British Pact.
(BY CABLE-EXCLUSIVE DISPATCH)
LONDON, April 27.—According to information received from an authoritative source, if the present naval program of the three leading naval powers are carried out until 1925, the United States will have eight capital ships embodying the naval lessons of the late war; Japan, eleven, and Great Britain, five. What additional strength they will have depends upon the rate at which the present ships are scrapped.

The present naval strength of the three powers, according to information in the possession of the British, is as follows:
Great Britain: Capital ships, 22; light cruisers, 51; destroyers, 115, and submarines, 56.
The United States: Capital ships, 35; light cruisers, 15; destroyers, 284, and submarines, 103.
Japan: Capital ships, 21; light cruisers, 17; destroyers, 87, and submarines, 73.
The present noted personnel, which in no case is actual, is: England, 153,700; United States, 150,000; and Japan, 75,600.
So far as British information goes, (Continued on Second Page.)

STOKES IN THREE COURTS.

Hotel Owner's Various Difficulties Keep Wheels of Justice Busy.

(EXCLUSIVE DISPATCH)
NEW YORK, April 27.—W. E. D. Stokes, wealthy hotel owner, occupied the attention of three courts today as participant in various criminal and civil suits. His legal activities were:
In the Supreme Court, under Justice Finch, he listened to the cross-examination of his wife from whom he is asking a divorce in which his attorneys attempted to break down her story denying his charges against her and making counter-charges against him.
In general sessions, Niles Gustaf Rhensstrom, 17 years old, pleaded guilty to an attempt to blackmail Stokes by means of threatening letters. The boy probably will be deported to Sweden, whence he came nine months ago.
In Federal District Court Stokes was subpoenaed to appear as a witness against Frank A. Hancock of Troy, charged with using the mails in a scheme to defraud. Hancock is said to have offered to obtain for Stokes a letter which he said was written to Mr. Stokes and which, he asserted, deeply compromised her.
Despite a severe cross-examination, Mrs. Stokes proved to be her own best witness. Incidentally it proved I did not marry Mr. Stokes for his money," said Mrs. Stokes in answer to questions by counsel for Mr. Stokes as to why she had written him.
Stokes after their marriage and at a time when, she testified, her husband had treated her cruelly.
Mrs. Stokes was seated at the counsel's table, wearing a small black silk skull cap. For several days he has suffered from a cold. He continued to take copious notes. All Mrs. Stokes's letters to Stokes (Continued on Second Page.)

HUGO STINNES IS ATTACKED; EX-KAISER'S PEACE DEMANDS ARE RELATED BY SOCIALIST

BERLIN, April 27.—By an overwhelming majority the Reichstag voted to postpone discussion of Dr. Simons's note to the United States. This action indicates a big swing toward Dr. Simons. Political circles predict a vote of confidence for the Foreign Minister is now probable.
A political storm broke out in the Reichstag when it reconvened this afternoon. At times the house was thrown into uproar with the words, "dirty dog," "traitor," "crook," "hypocrite," "liar" and "devil dog," the word the Germans called our marine brigade, being heard.

At times it appeared like a farce comedy, so much laughter from the members was heard. For the best part of the afternoon the various political parties attacked each other, and thus Foreign Minister Simons, who was expecting the violence to be directed against him, probably saved his political existence.
The sensation of the day occurred when the leader of the Independent Socialist party, Rudolph Breitscheid, spoke in defense of Dr. Simons's note to President Harding. "What would have been the German peace terms had Kaiser Wilhelm, the catastrophe whom the Nationalists still love and worship, won?" declared Breitscheid.
"I am a member of the Foreign Affairs Committee. I have seen the Kaiser's peace terms. The Kaiser would have demanded \$10,000,000,000 from America, \$40,000,000,000 from France and \$30,000,000,000 from England. That is \$100,000,000,000—eight times what Germany offers to the Entente."
The revelation left the Reichstag breathless.
"Moreover," continued Breitscheid, "what about the destruction of France and Belgium? I am not mentioning destruction for war purposes, but destruction for industrial purposes."
After Breitscheid's speech the entire Nationalist delegation quit the house except one member, and he was sitting.

RED FACING GRAVE CRISIS. ZINOVIEFF ADMITS THAT THE ORGANIZATION'S POSITION IS PRECARIOUS.

(BY CABLE-EXCLUSIVE DISPATCH)
BERLIN, April 27.—The Third International is facing a grave crisis which may lead to its dissolution, according to the latest issue of its official organ, the Communist International, which has just reached Berlin from Moscow. Zinovieff discusses the situation and admits the organization is precarious. This is confirmed by a series of recent developments of Socialist labor moves in Western Europe.
Within the last few days, the Communist party of Europe, much to the gratification of Moscow, this situation now produced a reaction in strengthening the right elements in the Communist movement. Zinovieff is bitterly disappointed in Italy, where "everything was ready for a revolution, but failed because of a series of mistakes."
He makes a similar observation regarding Czechoslovakia.
AGAIN DEALS BLOW
The most recent blow dealt the Third International came from Spain. Within the trade union federation met in Amsterdam, the Spanish Socialist party condemned the Third International by an overwhelming majority while the American delegation, headed by Zinovieff, was widely published in the press, where "everything was ready for a revolution, but failed because of a series of mistakes."
Zinovieff says: "All this calls for a quick convocation of the congress of the Communist International, which is being held in Moscow, to discuss the situation and to decide upon the future of the organization."
Zinovieff's fears are not unfounded as shown by developments in Germany, Italy, Czechoslovakia and other countries. In Germany the Communist movement is badly split as the result of the action of Paul Levy, Clara Zetkin and other prominent Communist leaders in condemning the recent Communist revolution as "criminal." Similarly, Zinovieff is bitterly disappointed in Italy, where "everything was ready for a revolution, but failed because of a series of mistakes."
He makes a similar observation regarding Czechoslovakia.

AGAINST SHORT WEEK.

American Newspaper Publishers Pledge Their Support in Fight.

(BY A. P. MIGHT WIRE)
NEW YORK, April 27.—The American Newspaper Publishers' Association in annual convention today, expressed its opposition to reduction of printers' hours below forty-eight a week, informed efforts of its members who are endeavoring to maintain the forty-eight-hour week and pledged them to its co-operation and support.
The convention authorized the appointment of a committee to negotiate new arbitration contracts with four international unions in place of those expiring April 30, 1922.
Warning against a possible future demoralization in the newspaper market, T. R. Williams, president of the American Newspaper Publishers' Association, in his address before the body today, told publishers that they must be prepared to allow to descend. He urged upon the newspaper publisher the need of co-operating with government forces in restoring world peace and bringing business conditions back to normalcy and especially in repealing unnecessary war-time legislation and obstructive features of Federal tax laws.
He pointed out that newspapers must meet the problems of material and labor since the average contract price of newsprint for the first six months of this year is higher than the average contract price for all last year and labor is at the highest point known.
"While the outlook for the newspaper market may be regarded as improving from the publishers' standpoint, the newspaper body pointed out that the market may become demoralized to such an extent that later in the year some publishers may be tempted to make reductions in subscription or advertising rates and throw down the gauntlet to all the old-time wasteful practices and laborious methods."
His suggestions for extending the usefulness of the association included the appointment of a new technical mechanical engineer, a legislative expert to supervise legislation affecting newspapers, and a board of directors of the Association.
(Continued on Third Page.)

Ten Bodies Are Recovered from Razed Buildings.

(BY A. P. MIGHT WIRE)
JACKSON (Miss.), April 27.—Ten bodies had been recovered tonight from the ruins of buildings wrecked in the tornado at Brantton yesterday. With several persons missing, it is believed the toll of dead will be increased.
More than thirty persons were injured, according to reports. Accounts indicate the storm swept an area of forty miles.

Southern Pacific Slash in Rates Asked by Valley

(BY A. P. MIGHT WIRE)
SAN FRANCISCO, April 27.—A protest against certain commodity rates charged by the Southern Pacific Company between Los Angeles and Imperial county points as "unjust and unreasonable" was filed with the State Railroad Commission today by the Imperial County Board of Supervisors. A petition of the rates was asked for.

FATHER NOW FACING CHARGE OF MURDER.

(BY A. P. MIGHT WIRE)
SAN RAFAEL, April 27.—A formal charge of murder was filed against John Corry, confessed slayer of his two young sons in Marin county last Sunday, Sheriff J. J. Keating swore to the complaint.

MAN STEAMER GIVEN UP AS LOST.

(BY CABLE AND ASSOCIATED PRESS)
NEW YORK, April 27.—The Italian ship San Michele, which disappeared February 2, last, with the loss and was today the last of missing ships in the list of missing ships in the Mediterranean. It carried a crew of 100 men.

FOUR IRISH REBELS TO DIE TODAY.

(BY CABLE AND ASSOCIATED PRESS)
DUBLIN, April 27.—Four men are to be shot tomorrow morning at the military barracks. They are, Patrick O'Sullivan, Maurice Moore, Patrick O'Rourke and Thomas Mulcahy, were convicted of levying war against the British crown forces.
The corporation and the labor board of Cork have adopted a resolution saying that as the British military barracks, they will not recognize a state of war, the resolutions will contravene civil war and the dictates of common humanity.
Copies have been sent President Harding and Pope Benedict.

DECISION UP TO ALLIES.

Hughes Awaiting Formal Word.
France Cables Jusseland Reparatons Absolutely Unacceptable.
Declares German Offers Are Step Backward Instead of Progressive.
BY ARTHUR SEARS HENNING.
(EXCLUSIVE DISPATCH)
WASHINGTON, April 27.—Whether Secretary of State Hughes will be enabled to bring about a resumption of the reparations negotiations depends upon the attitude of the Allies toward the German counter-proposal of which he expects to be advised officially by tomorrow. When he left the State Department tonight the secretary said he had not received the views of any of the Allied governments on the German note. He declined to say whether he himself regarded the Berlin communication as offering a "proper basis for discussion," which was one of the conditions he formed the German government it would be necessary to fulfill before the United States would consider transmitting the proposals to the Allies "in a manner acceptable to them."
CABLES JUSSELAND
New dispatches from Paris stated that the French government had called Ambassador Jusseland to inform Secretary Hughes of the German offer as "unacceptable." The Ambassador declined to discuss the matter, but he did see Hughes during the day, presumably not having received his instructions.
He is reported to be making inquiries of Berlin, concerning the "proper basis for discussion" of the German proposals, particularly the "manner acceptable to them."

SECRET CODES ARE UNEARTHED

Building Manufacturers Now Under Inquiry.

Information Regarding Bids is Exchanged.

No Free Competition in Fire Insurance Business.

NEW YORK, April 27.—Thirteen groups of manufacturers of the nation were brought under investigation today at the legislative building by the committee on the secret codes for information on another of their business operations and compare bids on each piece of work before forwarding a final quotation to the prospective buyer.

The organizations declared to be conducting their exchanges are grouped according to products and include manufacturers of cloth, paper, ammonia, brass, copper, fire, cotton goods, meters, naphthalene, natural gas appliances, rubber, steel lockers, steel sashes, and pipe valves.

NO COMPETITION.
The committee had been informed there is no such thing as free competition in the fire insurance business by W. A. Robb, manager of the New York Fire Insurance Exchange, who defended joint-rate making by the companies. Samuel Untermyer, committee counsel, severely criticized it and recommended State supervision.

The manufacturers exchange information through joint offices here. The committee was told the maintenance of their system and a large clerical force necessary to conduct it requires expenditures approximating \$200,000 annually.

WONT WAIVE IMMUNITY.
A. A. Alsworth, secretary of all the organizations, declined to waive immunity and was promptly succeeded as a witness by his office manager, Frederick H. Lohr.

In exchanging data each concern is represented by a code number and the product in question in various colors of paper, so the outsider can learn nothing from these reports. Mr. Lohr said. The numbers and colors are used for brevity, he asserted, not for secrecy.

The steel and machinery manufacturers' exchange learn of the bids and quotations of each member before any particular job is let, he explained.

Bobby, and Martha Jane together. "You have the license of course?" "No, but she has it," said Bobby. "Martha Jane looked at Bobby. They both walked disconsolately away. And now the wedding is off. Martha Jane's mother offered to give her a new car, but she would not accept it. She would abandon Bobby and accompany the Allen family to Wisconsin where they had a home. Martha Jane, the little creature, gleefully accepted.

You see, when she is 4, a calf seems more desirable than a husband. Bobby, 4 himself, was rather peevish about the "throw down." He thinks he should have a calf, too. The two children have been playing together for some time. Last evening when they were sitting on the steps, holding hands and otherwise indicating that spring and love had come to the pair.

"You want to see me?" the pastor inquired. "I want to be married," said Bobby. "You have the license of course?" "No, but she has it," said Bobby. "Martha Jane looked at Bobby. They both walked disconsolately away. And now the wedding is off. Martha Jane's mother offered to give her a new car, but she would not accept it. She would abandon Bobby and accompany the Allen family to Wisconsin where they had a home. Martha Jane, the little creature, gleefully accepted.

CALL BLUFF OF GOVERNOR.

Los Angeles Delegation Moves for Special Session on Reapportionment.

BY KYLE D. PALMER.
(EXCLUSIVE DISPATCH.)

SACRAMENTO, April 27.—The eleven-hour reapportionment bluff of Gov. Stephens was called tonight in a telegram sent by ten members of the Los Angeles delegation to Frank Wiggins, secretary of the Los Angeles Chamber of Commerce, and other delegations in the Legislature joined to defeat it, followed by the Governor's telegram to the Los Angeles Chamber of Commerce announcing himself in favor of passing reapportionment legislation.

Having held aloof from the political considerations and, later, having made a declaration on the subject for purely political purposes, the Governor's tactic to resolve themselves into a question as to whether he has played good politics or poor politics.

It is the contention of Southern California business organizations that the administration should be turned out of power two years hence for several reasons, principal among them the defeat of reapportionment at a regular session, as provided in the constitution, and the failure of the administration to effect a governmental reorganization plan assuring real economy and efficiency in State affairs.

FIGURE IN CAMPAIGN.
Beyond question these and other considerations will prominently figure in the gubernatorial campaign in Southern California. The Governor doubtless had in mind a strengthening of his line in Southern California when he announced today the appointment of P. P. O'Brien of Los Angeles as member of the State Board of Control to succeed Stanley Benedict, promoted to the Railroad Commission to fill a vacancy created by the resignation of Frank R. Devlin.

O'Brien's appointment was received with satisfaction in many quarters, being regarded as less of a political appointment than that of Benedict.

Reports persist that Chester H. Rowell, recently appointed to the Railroad Commission by Gov. Stephens, will resign at an early date. Weights and Measures, drew first blood today in his insistent move against the Stephens administration. In the bill as originally drawn, provision was made for including Johnson's department in the Department of Agriculture, with consequent elimination of Johnson, who unsuccessfully fought to have the Senate amend his appointment.

When the bill was debated in the Assembly today, however, the amendment was dropped, leaving the department of weights and measures in its present place.

It is surmised that the Governor may dislodge Johnson or take other means of taking away the insurgent's authority.

BREACH WIDENED.
Failure of the State administration to continue the rescue of reapportionment when San Francisco

HAS WAR PREVENTIVE.
Senator McCumber Submits Association of Nations Plan to Harding.

WASHINGTON, April 27.—Senator McCumber of North Dakota, a mild Republican reservationist during the contest over the Versailles Treaty, has prepared plans for the organization of an association of nations to prevent war. He has submitted his plan to President Harding. Senators Lodge and Knox and other Republican leaders for their consideration.

Concerning his proposal Senator McCumber said today: "There are three prime causes for war. First, national avarice, and selfishness and second, the absence of any real sense of power or check or control this avarice and selfishness. There are two forces, which if brought into action, would prevent any great unjust war—first, the conscience, the keen sense of the highest enlightenment, shall govern nations in all their international relations."

Individual Sense.
"The individual sense of right and wrong is for more keen and sensitive than the national sense of justice and honor. Organized societies, constituting into full play and operation the individual conscience, has brought substantial justice to the public of the public of the justice or injustice of any contemplated war."

Universal Compact.
"(1.) A joint compact of all the great nations of the world to and with each other, so that if one nation breaks the compact the breach is not against a single nation, but against all the other nations, parties to such compact."

Agreement by these nations whereby they declare it to be a fundamental principle of international law that the same code of ethics and morality which governs individuals in their relations to each other, in nations of the government, would be equally effective in preventing injustices between nation and nation. As there is no war in which one side or the other will not be wrong, this public conscience acting upon the government would prevent wars altogether."

How can these forces be made effective without surrendering in any sense the complete sovereignty and independence of each other? The formula is a simple one."

Louise Gude

the well known Soprano, who will be heard in a Song Recital at Trinity Auditorium on Monday Evening, May 2nd, at 8:30 p.m.

The Steinway Piano

This gifted artist, who makes her home in Los Angeles, has called forth nation-wide praise for the clear, mellow qualities of her singing voice. Like other great artists, she unhesitatingly selected the Steinway Piano to accompany her on the concert stage and has likewise purchased a Steinway for use in her home. Great artists of all time have been unanimous in their choice of the Steinway as the most expressive means of reflecting their genius. To own a Steinway is to be considered a connoisseur in things musical.

The Steinway may be obtained here only, in either upright or grand models.

makes her initial trip of the season next week. Her sister ship, the Harvard, will soon join her in the coastwise service. The owners of these floating palaces have taken out millions in

MARINE INSURANCE

No ship owner thinks of sailing a vessel to sea without marine insurance. No shipper can afford to ship goods without marine insurance. No shipper can afford to ship goods without marine insurance. No shipper can afford to ship goods without marine insurance.

We write all forms of marine insurance and will assume at any time an opportunity to discuss our work.

Body Wears Out!

"For Service"

body is a machine, subject
to wear and tear like any other ma-
chine. Particles of dust, dirt, and
grease, constantly entering the
joints, cause the machine to wear
and tear. It is constantly
breaking down, and needs a
repair. You need a machine that
will give you a repair.

made machinery
by hand, but the machine
is made by a machine. It is
called the blood stream.
The blood stream is the
life of the body. It carries
the food and oxygen to the
cells of the body. It carries
the waste products away from
the cells. It carries the heat
away from the body. It carries
the blood in the arteries, but
the blood in the veins is dis-
colored with poisons.

ALS CRUSH ANGELS AGAIN.

Lambast Doc Grandall
Good and Plenty.

to the Rescue with a
Double in Eighth.

Features at Second
Run with His Stomach.

BY HARRY A. WILLIAMS.

claim that nothing short
of a miracle played on Gabriel's
stage will wake up the Angels
who are sleeping sweetly with
their heads toward the East.
They stirred themselves
yesterday, enough to make
it not a victory.

A bitter hand-to-hand and
throaty fight, San Francisco
is 4, and made it two
for the second week. The
Angels were out their welcome
this is a statement, and not
a boast.

LOOKED WRONG.

the team looked as wrong as
any of Workman's campaign
was the windmill of Mayor
McCarthy. They were in a
position to win, and Los An-
geles was in a position to win.
The Angels were in a position
to win, and Los Angeles was
in a position to win.

Grandall pitched his usual
game on the local lot,

FIRST TUNA OF YEAR CAUGHT.

(EXCLUSIVE DISPATCH.)

AYALON, April 27.—Tuna fans had reason to rejoice today
over the bright prospects in the fishing line, as the biggest catch
in several years was made. Incidentally, it was the season's first
hook.

J. A. Cox of Los Angeles was the lucky man. He got the
strike from Capt. Farnsworth's launch Greygull and the weight
was 145 pounds. The catch is the earliest on record of any season.

"TEX" RICKARD SUEDE
BY F. C. ARMSTRONG.

(BY A. P. NIGHT WIRE.)

NEW YORK, April 27.—"Tex"
Rickard, sporting promoter, today
was made defendant in a suit filed
by P. C. Armstrong, who alleges he
has been associated with Rickard in
a business way, and who demands
an accounting of several enterprises
in which he maintains he had a
share. The amount of Armstrong's
claim is not set forth.

Mr. Rickard tonight declared he
had had no dealings with Arm-
strong, other than that the latter
had an interest with him in the
Richard Texas Oil Company. He
said Armstrong had made consider-
able money on the deal. Armstrong,
Mr. Rickard said, is a broker, deal-
ing largely in oil stocks.

Among the deals in which Arm-
strong claims he was connected
with the promoter are the Johnson-
Jeffries fight in 1910, the Richard
Texas Oil Company, the leasing of
the Madison Square Garden, the
William Moran boxing match, and
the South American Land, Cattle,
Packing and Concessions Enterprise.

INDICTED PLAYERS
WANT EARLY TRIAL.

(BY A. P. NIGHT WIRE.)

CHICAGO, April 27.—Attorneys
for five indicted White Sox baseball
players, Buck Weaver, Oscar (Hap-
py) Felsch, Claude Williams, Fred
McMullin and Swede Risberg, noti-
fied Assistant State's Attorney Gor-
man today that they would be be-
fore Chief Justice McDonald of the
criminal court tomorrow and file a
demand for an immediate trial of
the indicted men.

Michael Ahern, one of the counsel,
said that under the Illinois law,
this would mean that the men would
have to be tried in July or the in-
dictments would be automatically
dismissed.

GOLFER GUILFORD
IN THE FIRST DRAW.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, April 27.—In the draw
tonight for the amateur golf cham-
pionship at Hoylake, May 23, Jesse
P. Guilford of Boston will meet
Orrin Tolley, who of the day has
been the king of pish-hitters.

Other Americans who will play
in the tournament are Bobby Jones,
Atlanta, Ga.; Paul D. Hunter, Los
Angeles; Francis Outmet, Boston;
Fred J. Wright, Boston; Charles
Evans, Jr., Chicago; J. H. Douglas,
Corpus Christi, Tex.; and W. D.
Hunt, Houston, Tex.

DR. PAUL HUNTER
REACHES CHICAGO.

(BY A. P. NIGHT WIRE.)

CHICAGO, April 27.—Dr. Paul
Hunter of Los Angeles, Southern
California amateur champion, ar-
rived in Chicago today on his way
to Europe, where he will contest the
various events this spring and sum-
mer. He is expected to be one of
the amateur invaders who will en-
ter the British open and amateur
championships and may later go
to France to compete in the cham-
pionships there.

Eddie Loos, golf professional at
the Savoy Hotel, Chicago, profes-
sionally announced tonight that
this season he would go to Europe
with the team of twelve profes-
sional golfers recently selected to
represent the United States in the
British open championship.

ANNOUNCED ENTRIES
IN BALLOON RACE.

(BY A. P. NIGHT WIRE.)

NEW YORK, April 27.—Entries
for the national balloon race, to
start from Birmingham, Ala., on
May 21, were announced tonight by
the Aero Club of America. The three
winners will earn the right to par-
ticipate in the international race for
the Gordon Bennett Cup, to start
from Brussels in September. The
entries follow:

Roy F. Donaldson, pilot of the
City of Birmingham.
Wade T. Van Orman, pilot of the
City of Akron.
Ralph Upson, New York pilot,
winner of the international event in
1918.

The Aero Club was informed to-
day there would be three entries
from the Army and one from the Navy.

SUTTON PUTS IT ON
EDOUARD HOREMANS.

(BY A. P. NIGHT WIRE.)

MILWAUKEE (Wis.) April 27.—
George B. Sutton of Chicago and
former billiard champion, defeated
Edouard Horemans, Belgian, tonight
in both the afternoon and evening
matches of 16.1 ball-line billiard.
Sutton took the afternoon match 400
to 211 in twenty-one innings. In the
afternoon match Sutton ran 143,
which he said was the highest run
he ever made in this class of bil-
liards in a match game.

MISS KAVANAGH
WINNER AGAIN.

(EXCLUSIVE DISPATCH.)

Los Angeles Golf Crack is
Victor Over Mrs. Wiel.

Gets Long and Accurate Ball
from the Tee.

Miss Cameron Eliminated
from Championship Play.

(EXCLUSIVE DISPATCH.)

SAN FRANCISCO, April 27.—It
was very lovely today at the Beres-
ford Country Club, but it was also
very hot. Half a hundred ladies
were ready for summer in the light-
est of habiliments, many of them
wearing cool and becoming white,
while the brilliant-hued sweaters of
the spring were discarded.

FLANK FIGHT.

The caddies perspired and wel-
comed the many brief matches. Many
of the contestants being appar-
ently anxious to return to the cool
shade and refreshments of the
clubhouse. The stress of the weather
made some matches hotter than
ever and caused some arguments in
the locker-room, but everyone felt
better after Manager Ed Lyon's
word of cheer and enjoyed the af-
ternoon's sport, which consisted of
an approaching and putting contest.

WASHING TON NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

WASHINGTON, April 27.—Reopening of the reparations issue, either through formal presentation to the Allies of the German note, which is unlikely, or further discussion with Berlin of any of the German proposals which is possible, depends upon the position taken by the Allied governments of which Secretary Hughes expects to be advised tomorrow.

Senator Smoot inaugurated the debate on revenue questions today with a speech in support of his sales-tax plan, his argument drawing sharp criticism from Senators Kanyon and McCumber.

Senator Walsh of Massachusetts charged the government with failure properly to provide for disabled ex-service men, asserting that veterans are housed in "so-called hospitals under conditions in which a self-respecting community would not tolerate its incapacitated criminals to live."

Eighty-four postmasters were nominated today by President Harding, each of whom, except in cases where the veteran preference statute operates, had attained the highest mark in competitive civil service examinations.

Passage at this session of legislation regulating grain exchanges seems assured. Representatives of the grain dealers, who appeared today before the House Committee on Agriculture, expressed their willingness to join in enacting a measure in their trade.

SHIPS ARE GETTING RAILROADS' TRADE.

HIGH RATES FROM COAST DESTROYERS TO FREIGHT TRAFFIC, SAYS CONGRESSMAN.

(EXCLUSIVE DISPATCH.)

WASHINGTON, April 27.—Continuation of the present high freight rates from the Pacific Coast will result in the diversion of the major portion of heavy freight traffic to the steamship lines operating through the Panama Canal, declared the high rates are driving the shippers to the use of the canal, permitting the establishment of regular lines to the Atlantic Coast.

"Every time a shipload of fruit and produce leaves Southern California it means a loss of \$15,000 to the railroads of the country. The only manner in which this may be averted is to have the roads lower the rates, regain the trade, permit the produce to reach the eastern market at fair prices, and permit a just profit to the growers and the roads in the future," Edwards declared.

ALLEGED MAIL THIEF IS ESCAPED CONVICT.

MAN HELD IN DETROIT IS UNDER LIFE SENTENCE FOR MURDER IN BAY CITY.

(BY A. P. MIGHT WIRE.)

DETROIT, April 27.—George Rogers, held in connection with the recent Toledo mail robbery, has been identified, Federal authorities announced today, as a convict who escaped from the San Francisco jail more than a year ago following his conviction on a murder charge.

SAN FRANCISCO, April 27.—George Lewis, also known as George Rogers, reported held in Detroit in connection with a recent extensive robbery of the mails at Toledo, is wanted here to serve a life sentence for the murder of Damien Segalla, according to the police, Rogers was convicted of first-degree murder in connection with the shooting of Segalla, whom he and several companions had robbed, but escaped from the local jail before he was taken to the penitentiary.

SHARF PLAN TO GO TO DETROIT TO BRING LEWIS HERE FOR TRIAL, HE SAID TODAY.

IMMIGRATION BILL TO GET IN SENATE.

(BY A. P. MIGHT WIRE.)

WASHINGTON, April 27.—Prospects that the immigration restriction bill, passed by the House last week, would reach the President's hands this week, vanished today when the Senate Immigration Committee adjourned without action, to meet again Friday.

It is alleged that the gangster scores of mail thefts and persecution to the Indianapolis "clearinghouse" and repainting shop.

FEDERAL INDICTMENTS SECURED AGAINST SUSPECTED AUTO THEIVES.

(EXCLUSIVE DISPATCH.)

CHICAGO, April 27.—The first court step taken by the Federal government by which it hopes to break up the organization of automobile thieves preying on wealthy Chicago motor-car owners, and to land the leaders behind prison walls was accomplished today. Six alleged leaders of the gang, specializing in stealing expensive machines from the Lake Shore Drive, South Shore, Edgewater and Rogers Park districts, and sending them to Indianapolis for repainting, were indicted by the Federal grand jury.

The six alleged gang leaders are William Beville, Roy Rapp, Leo Sobak, Fred Snyder, Seth Beville and William Price.

It is alleged that the gang stole scores of mail thefts and persecution to the Indianapolis "clearinghouse" and repainting shop.

REUSE SURETIES ON TINGLEY BOND.

COURT DEMANDS NEW NAMES ON GUARANTEE INCIDENT TO APPEAL.

(EXCLUSIVE DISPATCH.)

SAN DIEGO, April 27.—Two of the sureties for the \$10,000 bond for Mrs. Katherine Tingley required to appeal the alienation of affection suit brought against her by Mrs. Irene Mohr were today refused by Judge P. J. Judge to be re-used.

The two were those of Mr. and Mrs. M. H. Nersisimian of the Point Loma Theosophical Center, who were on the bond for \$50,000. As they owned no property in this state the judge ruled they could not be accepted. Dr. Hyman Lischner was then placed on the bond for \$40,000 in their stead.

The others on the \$100,000 bond are Mrs. Elizabeth Spalding, \$100,000; Abbott Clark and Orange Clark, \$127,000 each; Willard Smith, \$6000. Attorneys for the opposing sides argued all day before Judge Carey concerning the sureties which were brought up to be justified. Tingley attorneys have now justified the sureties for \$100,000, but C. C. Crouch, attorney for Mrs. Mohr, holds that, according to law, there must be two sureties for such a bond, each of which must qualify as to the full amount of the bond, which is double the sum of the judgment. This will make necessary to secure sureties for \$400,000 if the judge sustains the contention of Crouch. No decision has been given as yet.

WASHING TON NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

WASHINGTON, April 27.—Reopening of the reparations issue, either through formal presentation to the Allies of the German note, which is unlikely, or further discussion with Berlin of any of the German proposals which is possible, depends upon the position taken by the Allied governments of which Secretary Hughes expects to be advised tomorrow.

Senator Smoot inaugurated the debate on revenue questions today with a speech in support of his sales-tax plan, his argument drawing sharp criticism from Senators Kanyon and McCumber.

Senator Walsh of Massachusetts charged the government with failure properly to provide for disabled ex-service men, asserting that veterans are housed in "so-called hospitals under conditions in which a self-respecting community would not tolerate its incapacitated criminals to live."

Eighty-four postmasters were nominated today by President Harding, each of whom, except in cases where the veteran preference statute operates, had attained the highest mark in competitive civil service examinations.

Passage at this session of legislation regulating grain exchanges seems assured. Representatives of the grain dealers, who appeared today before the House Committee on Agriculture, expressed their willingness to join in enacting a measure in their trade.

SHIPS ARE GETTING RAILROADS' TRADE.

HIGH RATES FROM COAST DESTROYERS TO FREIGHT TRAFFIC, SAYS CONGRESSMAN.

(EXCLUSIVE DISPATCH.)

WASHINGTON, April 27.—Continuation of the present high freight rates from the Pacific Coast will result in the diversion of the major portion of heavy freight traffic to the steamship lines operating through the Panama Canal, declared the high rates are driving the shippers to the use of the canal, permitting the establishment of regular lines to the Atlantic Coast.

"Every time a shipload of fruit and produce leaves Southern California it means a loss of \$15,000 to the railroads of the country. The only manner in which this may be averted is to have the roads lower the rates, regain the trade, permit the produce to reach the eastern market at fair prices, and permit a just profit to the growers and the roads in the future," Edwards declared.

ALLEGED MAIL THIEF IS ESCAPED CONVICT.

MAN HELD IN DETROIT IS UNDER LIFE SENTENCE FOR MURDER IN BAY CITY.

(BY A. P. MIGHT WIRE.)

DETROIT, April 27.—George Rogers, held in connection with the recent Toledo mail robbery, has been identified, Federal authorities announced today, as a convict who escaped from the San Francisco jail more than a year ago following his conviction on a murder charge.

SAN FRANCISCO, April 27.—George Lewis, also known as George Rogers, reported held in Detroit in connection with a recent extensive robbery of the mails at Toledo, is wanted here to serve a life sentence for the murder of Damien Segalla, according to the police, Rogers was convicted of first-degree murder in connection with the shooting of Segalla, whom he and several companions had robbed, but escaped from the local jail before he was taken to the penitentiary.

SHARF PLAN TO GO TO DETROIT TO BRING LEWIS HERE FOR TRIAL, HE SAID TODAY.

IMMIGRATION BILL TO GET IN SENATE.

(BY A. P. MIGHT WIRE.)

WASHINGTON, April 27.—Prospects that the immigration restriction bill, passed by the House last week, would reach the President's hands this week, vanished today when the Senate Immigration Committee adjourned without action, to meet again Friday.

It is alleged that the gangster scores of mail thefts and persecution to the Indianapolis "clearinghouse" and repainting shop.

FEDERAL INDICTMENTS SECURED AGAINST SUSPECTED AUTO THEIVES.

(EXCLUSIVE DISPATCH.)

CHICAGO, April 27.—The first court step taken by the Federal government by which it hopes to break up the organization of automobile thieves preying on wealthy Chicago motor-car owners, and to land the leaders behind prison walls was accomplished today. Six alleged leaders of the gang, specializing in stealing expensive machines from the Lake Shore Drive, South Shore, Edgewater and Rogers Park districts, and sending them to Indianapolis for repainting, were indicted by the Federal grand jury.

The six alleged gang leaders are William Beville, Roy Rapp, Leo Sobak, Fred Snyder, Seth Beville and William Price.

It is alleged that the gang stole scores of mail thefts and persecution to the Indianapolis "clearinghouse" and repainting shop.

Hilvilla Tea
A Better Tea
BOTH KINDS
GREEN OR BLACK

It's a long way in quality from ordinary tea to fine tea, but it's only a short way in price. Why not drink Hilvilla then and enjoy the best?

Quarreled Since Wedding Day

"My stomach and liver trouble made a regular grouch of me. I was sore at everyone, including my wife, and we quarreled every day since the wedding. She is a dear little girl and I know it was my fault. May's Wonderful Remedy was recommended for my stomach trouble, and since taking it I have felt like a new man. My wife and I now get along beautifully." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Advertisement.

WISCONSIN FARMS HIT BY TWISTERS.

(BY A. P. NIGHT WIRE.)
ELROY (Wis.) April 27.—A tornado swept through Juneau and adjacent counties late yesterday, destroying crops and blowing down a number of farms and killing cattle and horses.

The twister is reported to have hit Hustler and Kendall, Wis., cutting communication with outside points.

LAKE TAHOE, California—showing Rubicon Point. In the distance is French Peak—elevation 10,000 feet. This mountain is about four miles south-west of the boundary between California and Nevada.

A section of the bank's report devoted to citrus fruits, said on April 1, 1921, approximately 25 per cent of the navel orange crop, now estimated at 25,000 cars, remained to be gathered. The navel orange crop in 1919-20 was 16,700 carloads. Weather conditions, the report declared, have been favorable for the distribution.

VALENCIA PROSPECTS.
The Valencia orange crop, which will be harvested during the summer months, is estimated at 22,500 cars, the statement said. "The coming crop is expected to be the largest ever harvested in the State and the oranges appear to be of normal size, without an excess of either large or small fruits."

Discussing sugar beet plantings, the report said the acreage planted this year was expected to be about the same as last year, when 292,000 acres were set out.

Regarding live stock, the report declared the low prices of feed and of live stock seem to offer opportunities for profitable investment in stocker and feeder animals, but reports from principal markets indicate stock men are not buying to increase their herds.

BUTTER MARKET POOR.
General weakness and uncertainty characterized the butter market on the Pacific Coast during March, the report said. This condition was due largely to increased receipts and a diminution of local and eastern demand which forced dealers to make price concessions in order to dispose of current product, as the storage season in the district is still a month away. Toward the end of the month the situation was relieved by a resumption of eastern demand.

March production of lumber, 218,214,000 feet, according to reports from the four lumber associations in the district, was 35,244,000 feet greater than the February cut. In the corresponding four weeks of March, 1920 the cut was 468,778,388 feet. Although this increase is partly seasonal, the report asserted, it represents continuation of the gradual recovery of the lumber industry, which has been in progress since early in February.

MINE PRODUCTION INCREASES.
Reports from fifteen mines, indicate a small increase in the production of gold, silver and lead and decrease in copper.

Business failures during the month increased in number and liabilities as compared with February and with March of 1920. There were 165 failures reported in March with liabilities amounting to \$2,045,623.

STANDARD OIL COMPANY (California)

Beautiful Lake Tahoe

LAKE TAHOE lies on the California-Nevada line in the Sierra Nevada Mountains—fifteen miles south of Truckee and two hundred miles east of San Francisco. The marvelous color of Tahoe varies from the deepest indigo to brilliant emerald. Surrounding the lake are lofty peaks—from seven thousand to over ten thousand feet high.

The motorist may reach Tahoe by many routes, and whether you go from the east, west, north or south, you will always find a service station or garage displaying the Red Crown sign.

Look for that sign when you need gasoline. It is your assurance of getting an all-refinery gasoline—with a continuous chain of boiling points.

BUSINESS NOW SHOWING GAIN.

Unemployment Decreases in Reserve District.

Bank Clearings Are Down but 15 Per Cent.

Industries of All Kinds Now Are Active.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, April 27.—Definite signs of business revival in certain industries of the Twelfth Federal Reserve District appeared during the past month, during which period also spring activity in agricultural operations began, according to a report made public here today by the Federal Reserve Bank of San Francisco.

"Lumber production, which has been at the lowest point in two years, was 17.3 per cent greater last month than in February," the report said. "Approximately 60 per cent of the mills today are in operation—some on part time—as against less than 10 per cent on March 1, 1921."

CONDENSARIES RESUME.
Several milk condensaries, which had been closed since the end of 1920, have resumed operations and others have increased their output to meet orders growing out of a more active domestic demand and a slight increase in foreign shipments.

"Unemployment has decreased, except in the coal mine district, where shutting down of the principal producers has been ordered until the market price of copper rises to a point which will make production profitable."

"In the shipbuilding industry, two new contracts of record also were announced by one yard, although others are nearing the end of the construction for which they have contracts."

"The building industry shows distinct signs of revival, permits in March, 1921, exceeding in value those of the same month, 1920, by 24.9 per cent and being 50 per cent in excess of those of February, 1921, as to indicate more than seasonal increase of activity."

BANK CLEARINGS.
"Bank clearings were only 15 per cent less in total value than in March, 1920, which, in view of the year's decline in prices, indicates that the volume of business being done is not less and probably greater than that of last year at this season."

"Various price indices show that wholesale prices are approximately 40 per cent lower than they were a year ago, and volume of actual transactions in the wholesale trade generally is probably not less than it was a year ago at this time."

"In the agricultural industries, mixed tendencies appear. Certain commodities, rice, cotton, barley, wool and hops, have not moved materially since last year, but sugar, both cane and beet, and canned fruits have been steadily moving into consumption."

GOOD CROP CONDITIONS.
"Prospects occurred opportunistically during March, but were not marked by the abundant rainfall which has characterized the winter of the district. Conditions are reported exceptionally favorable for growing crops in all sections of the district, and of Southern California and Southern Arizona, where the rainfall has been below normal all season."

"A cold spell, followed by frost, occurred over the whole district during the last few days of March and the first few days of April. Some damage was reported from practically every fruit and vegetable-growing area, but, while individual growers suffered severely in some cases, reports indicate no serious reduction of prospective crops for this season."

A section of the bank's report devoted to citrus fruits, said on April 1, 1921, approximately 25 per cent of the navel orange crop, now estimated at 25,000 cars, remained to be gathered. The navel orange crop in 1919-20 was 16,700 carloads. Weather conditions, the report declared, have been favorable for the distribution.

JURY OF WOMEN SUITS ACCUSED.

MRS. ORTHWEIN TO BE TRIED FOR MURDER. HAS NO OBJECTIONS TO OWN SEX.

(REUTERS DISPATCH.)
CHICAGO, April 27.—Mrs. Cora Orthwein, to be tried June 15 for the killing of Herbert Ziegler, is willing to be tried by a jury of women.

Her attorney announced today that she also was willing to have her case tried by a jury of her own sex.

Assistant State's Attorney Heath, who made the first suggestion for a jury of women, said Mrs. Orthwein would not be able to vamp twelve women.

Judges representing the Circuit and Superior courts will meet Friday to discuss plans for woman juries. If lists can be completed in time, names of women will be drawn for prospective jurors in the Orthwein trial.

ST. PAUL BANKER IS NAMED FOR BOARD.

(REUTERS DISPATCH.)
WASHINGTON, April 27.—President Harding today sent to the Senate the name of John H. Mitchell, St. Paul banker, to be a member of the Federal Reserve Board, representing the Middle West.

Mr. Mitchell had been considered for the post for some time, along with other mid-western bankers. He finally was selected and, in the event of the retirement from the board of Gov. Harding, stands a good chance of being made governor of the board. Mr. Mitchell will take the place on the board of D. C. Williams, resigned.

FORMER RAIL HEAD DIES.
(BY A. P. NIGHT WIRE.)
CHICAGO, April 27.—William E. Phillips, 49 years old, former president of the Chicago and Western Indiana Railroad, died today. He was known as one of the country's leading amateur trapeze artists.

ARREST WHISKY MEN ON LIQUOR CHARGE.

DISTILLERY OFFICIAL AND EMPLOYEE CHARGED WITH TRANSPORTING BOOZE.

(REUTERS DISPATCH.)
CHICAGO, April 27.—Louis Rosenfeld, secretary and treasurer of the Sunnybrook Distillery of Louisville, Ky., and F. W. Harrison, an employee of the company, were arrested today by Federal authorities, charged with transporting 1000 cases of whisky, valued at \$175,000, in violation of the Federal prohibition law.

The men were apprehended at 195 West Randolph street, the Chicago office of the company, on a Federal warrant returned by the grand jury at El Paso, Tex.

According to Asst. U. S. Atty. Roy J. Egan, the cases of whisky were consigned from the United States to Juarez, Mex. Federal authorities declare that the address was only a subterfuge, and that it was intended to get the whisky into Mexico, and dispose of it to bootleggers, who would take it back into the United States.

Both men declared they would fight removal to El Paso to answer the charges. Commissioner Lewis F. Mason, before whom they were arraigned, set May 6 for the removal hearing. Bonds of \$2000 were furnished by each of the men.

AUCTION EXTRAORDINARY.—Today, Thursday, April 28, 1921, 1425-27 West 34th Street.

WEST ADAMS CAR TO VERMONT.

We will sell over \$15,000 worth of high and medium grades of furniture, domestic rights. These goods have been removed from some of the best hotels and apartment-houses. DAILY TRADE TALK.

Banking Conditions in Mexico; New Life in Business; Day's Events.

By CHAPIN HALL.

HIGH SPOTS.

Mexico on a hard money basis needs credit currency. Southern republic holds great promise of business development. Conditions in widespread parts of the country reviewed. Conservative but optimistic outlook in the keynote. At the beginning of the busy season Chicago consumers get a cut in gasoline prices. Los Angeles quotations remain firm.

California flour mills are gradually speeding up. New operating at 60 per cent capacity. Outlook for wheat. Our trade with Hawaii doubles in two years and islands loom up as a potential worthwhile market for Southern California.

Issue of Venice school bonds is offered through Los Angeles investment house. San Francisco would have country believe all California contributors to her waning glory as a state's business and financial hub.

Northern Pacific and Great Northern railroads offer a joint issue of \$250,000,000. Stock market develops a tendency to weakness with Tom Reed minor leading the decline.

United stocks will be called next week on the Los Angeles exchange.

gland are showing a slow, but steady improvement, and sentiment among bankers is becoming increasingly hopeful. Steady consumption in having its effect upon industries, and most of the trouble mills have all of the orders they can handle for fall delivery.

In the cotton end of the textile trade, the fine goods are selling and the coarse goods are not. There is a better feeling in the leather market. Hides are pretty well cleaned up, but the supply of leather is large and sales are increasing.

In New York there is a well diversified improvement in general business conditions. The average weekly wage of factory workers is \$26.97, which is 90 cents under the average for one year ago.

Buyer is still shopping for values and making no purchases unless satisfied that he is getting them.

In Pittsburgh, steel plant operations show moderate improvement. Production tendency is upward, and bottom prices seem to have been reached.

In the great wheat domain, the Northwestern National Bank of St. Paul says that conditions as a whole are favorable, with no unannounced obstacles in the way of spring financing, and with labor supply adequate and much reduced in cost. Revival of activities in various directions have begun.

In San Francisco, Ariz., the center of the lumber production of that state, the report is somewhat less optimistic. The lumbering industry of the Mogollon Plateau appear to have no general agreement, but are operating on their own. The big new Pollock mill had only a short run before being closed, though understood to have a large tie contract with the Santa Fe Railroad. Other mills are operating on half time, or planning resumption later in the season. The big mill of the Raginaw & Manistee Lumber Co., at Williams, is closed indefinitely, with explanation that water is lacking.

A GROWING MARKET.

Our trade with Hawaii is growing enormously. Statistics compiled by the trade extension department of the Chamber of Commerce show that in two years shipments from the United States to the islands have more than doubled, while imports have increased in almost as great a ratio.

CALIFORNIA FLOUR.

An official of the Sperry Flour Company is authority for the statement that a very large winter wheat crop is in prospect. Pacific Coast millers report some increase in export demand, but they are still chary about advising jobbers to buy beyond immediate necessities. "With July wheat selling below the farmers' cost of production, and every indication that there will be no carry-over of the 1930 crop, the statistical position is a very strong one," said this official. California mills are now operating at about 60 per cent of capacity and northern mills at slightly less than 60 per cent.

PERSONAL MENTION.

S. S. Wolf, president of the Tom Reed Gold Mining Company, which has been elected a director of the Arizona Standard Copper Company, which is

GASOLINE PRICES.

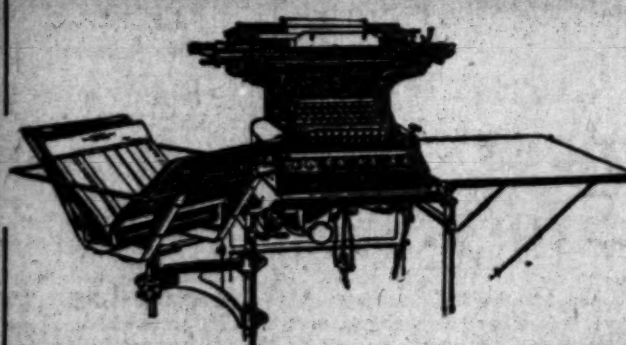

In the face of Washington reports to the effect that the Mexican oil fields may have a comparatively short life, and in spite of the fact that in most parts of the country the open season for automobiles has just commenced, Chicago announces a 3-cent cut in the price of gasoline, which is now available to the consumer in that city for 25 cents per gallon, or 3 cents less than the prevailing price in Los Angeles.

BUSINESS REVIEW.

Business conditions in New En-

FINANCIAL.

OFFICE OF THE TREASURER.
Los Angeles, April 28, 1931.
Bank clearing yesterday was \$12,018,082.50, as compared with \$11,778,000.00 on April 27, 1931.
Today \$12,044,008.11; 1931 \$12,044,008.11; 1930 \$12,044,008.11; 1929 \$12,044,008.11; 1928 \$12,044,008.11; 1927 \$12,044,008.11; 1926 \$12,044,008.11; 1925 \$12,044,008.11; 1924 \$12,044,008.11; 1923 \$12,044,008.11; 1922 \$12,044,008.11; 1921 \$12,044,008.11; 1920 \$12,044,008.11; 1919 \$12,044,008.11; 1918 \$12,044,008.11; 1917 \$12,044,008.11; 1916 \$12,044,008.11; 1915 \$12,044,008.11; 1914 \$12,044,008.11; 1913 \$12,044,008.11; Service

The Underwood

Underwood Typewriter Co.

Miss Underwood,
222 South Broadway,
Los Angeles, California.

Underwood

Replying to your inquiry of recent date, you are informed that Underwood typewriters will have their anniversary sale beginning on May 1st, and continuing through the month.

Assuming you that we would be glad to further serve you in any way in our power, we are

Very truly yours,
S. N. Underwood
Manager.

Regular Substantial Dividends Linked With Positive Security

The Preferred Stock of the Los Angeles Gas and Electric Corporation Will Pay You Better Than 7% on Your Savings and Does Not Contain the Slightest Element of Speculation

The wage earner who has been laying aside a few dollars each month for a "rainy day" knows that an investment in which regular, definite dividends at more than 4% are coupled with absolute safety, is rare indeed.

But in the Preferred Stock of the Los Angeles Gas and Electric Corporation his savings will earn more than 7% per annum, with every safeguard taken for his protection.

Back of this Preferred Stock is a plant worth more than \$25,000,000—a plant of vast and perpetual earning power.

Back of this Preferred Stock stands a record of efficiency and integrity

In case of emergency you will find this Preferred Stock readily salable. This, because of its inherent value, and positive earning power.

Feel Free to Consult With Us Regarding Any Phase of This Investment Which May Not Be Clear to You

JAPS STIFFEN THEIR STAND.

Kato Says Great Britain is Not to Dictate.

They Must Change Views, He Tells Writer.

Don't Want Philippines Made Armed Islands.

(BY CABLE-EXCLUSIVE DISPATCH.)
TOKYO, April 27.—Viscount Kato, Foreign Minister under former Premier Okuma, and now the leader of the opposition in the Diet, boldly told the correspondent in the Philippines that Great Britain cannot dictate the terms in the event of a renewal of the Anglo-Japanese alliance.

Viscount Kato was the first Japanese to graduate from Harvard, was the original treaty was drafted, and was also the author of the twenty-one demands on China. Since he was a delegate to the League Assembly at Geneva, his remarks are held to be most important.

ATTITUDE STIFFENS.
The stiffening of the Japanese attitude toward the British, as reflected by Viscount Kato, came in that part of the interview concerning the possible fortification of the Philippines if America remains. "Japan has no Philippine ambitions," he said. "If it had it could have realized them long before America went there. Aguinaldo entertained some hope of getting the Japanese interested, but we gave him no encouragement whatever. What Japan wants is an orderly and peaceful Philippines. Whether the people get their independence or not is no concern of ours."

"At the same time we do not want the islands strongly fortified and

menace to the peace in this part of the world.

"Independence or not, all Japan wants is an opportunity for peaceful development in the Philippines. As to the ownership, that is no concern of ours."

TALKS ALLIANCE.
Then like a bolt from a clear sky the Viscount thundered:

"There is no reason why the Anglo-Japanese alliance should be renewed. This may sound strange coming from a man who had an important part in drafting the alliance. If Great Britain or Australia thinks Japan is eager to get an alliance under any conditions that may be imposed, they are much mistaken. The British have been masters of the Orient so long that they look on the Japanese as intruders. They must change that view."

TRIUMPH IS SCORED BY BUSINESS SHOW.

ATTENDANCE ECLIPSES THAT OF SIMILAR EXHIBITS IN EASTERN CITIES.

Establishing a record of a larger attendance than Boston and other eastern cities at their annual affairs, the Los Angeles Business Show was one of the most successful of the week. Yesterday afternoon was business executives' day. Leaders of local industry attended the session in large numbers. In the evening the show was thrown open to the general public.

According to Waldo T. Tupper, secretary of the Business Exposition Company, the Los Angeles show is the most successful ever held on the Coast. Shows have been held at San Francisco and other northern cities in years past, but in the evening the show was thrown open to the general public.

Today will be devoted to out-of-town merchants. Both the afternoon and evening sessions will be turned over to visiting business men, and appliances and machines for store and office that are particularly adaptable to small organizations will be on display.

"Our efforts to bring the manufacturers of the West and East together with the consumers and distributors of the Southwest have been more than successful," said Mr. Tupper last night. "We have awakened the eastern men to the possibilities of this section, and they have discovered things they never knew before. From what local men have told us, the next Los Angeles business show will be at least twice as large as this one. Several have told us that they believe space for a premium."

DEPOSITARY BILL PASSES.

(BY A. P. NIGHT WIRE.)
WASHINGTON, April 25.—The bill authorizing the Secretary of the Treasury to designate foreign depositaries for public moneys was passed today by the Senate.

SILVER QUOTATIONS.

(BY A. P. NIGHT WIRE.)
NEW YORK, April 27.—Silver, domestic, 12 1/2¢; foreign, 12 1/2¢; Mexican, 12 1/2¢.

DENVER METAL MARKET.

DENVER, April 27.—The silver market was quiet today. The price of silver was 12 1/2¢.

The Times

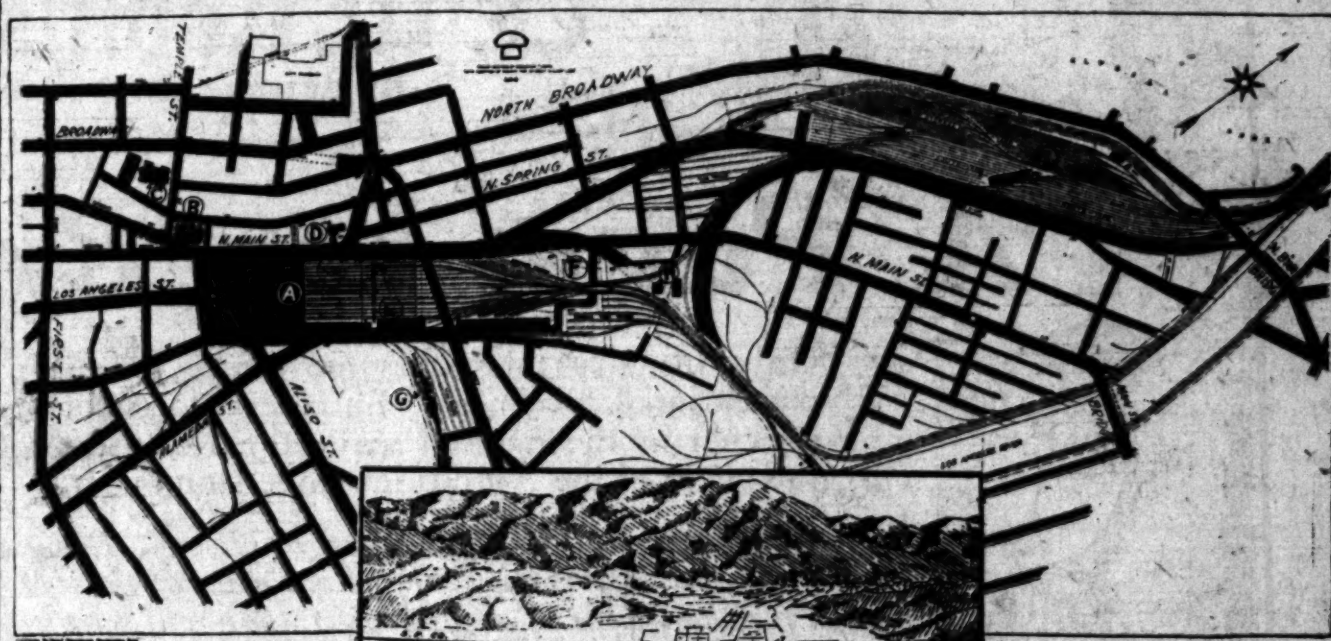

LOS ANGELES

THURSDAY MORNING, APRIL 28, 1921.—PART II: 12 PAGES.

POPULATION

By the City Directory—(1911)—178,000
By the Federal Census—(1920)—218,000

How Railway Map of Los Angeles is to be Remade.

COUNCIL LIKES PLAZA RULING.

Adopts Resolution Saying Co-operation of City in Project Assured.

By unanimous vote of the City Council, the State Railroad Commission was commended yesterday for its action in choosing the Plaza site for the location of the union railroad terminal and for its work on plans for the elimination of grade crossings.

The resolution was presented by Councilman Farmer, seconded by Councilman Conaway and declared in part:

"The real trouble has now been removed by the commission. The way has been opened for an improvement that badly needed by the city of Los Angeles, through its officials and departments, co-operate in every possible way to complete this most vital undertaking and to make effective this decision at the earliest possible date."

In the opening paragraph of the resolution it was declared that the result of the commission's decision is very gratifying to the Council, and the City Clerk is instructed to write the commission appraising it of the Council's action.

Skull of Aged Man Fractured by Street Car.

An elderly man identified by the police as John H. Carruthers of 1915 Cawston avenue, South Pasadena, was probably fatally injured when struck by Los Angeles Railway car No. 1012 at Seventh and Spring streets last night. He was rushed to the Receiving Hospital, where it was found he had probably suffered a basal fracture of the skull in addition to a broken left collar bone. He was still unconscious at a late hour.

According to Motorist A. E. McGillich, who was in charge of the street car, a one-man coach of the Southern Pacific freight line, the elderly pedestrian disregarded a signal from a traffic officer and walked across the street at the front corner of the southbound car.

COUNCIL TO ACT TODAY ON PLAZA DEPOT PLAN.

Would Rush Work on Big Rail Project; Sachse Says Commission to Enforce Ruling Legally if Need Arises.

Action today by the City Council to appoint two members of the committee of engineers to work out the details of the \$32,000,000 Plaza terminal and related rail co-ordination and crossing elimination plans, under the State Railroad Commission's order of Tuesday, was virtually assured yesterday.

"It is understood," declared Councilman Wheeler last evening, "that the Council will be officially notified by the State Railroad Commission of its Plaza terminal decision at the meeting this morning. If so, there will be no delay in conforming with the orders of the commission. We will act to name our men at once."

"There is nothing to indicate," said Mr. Sachse, under whose supervision all the engineering work leading up to the decision was made, "that any of the railway companies will refuse to comply with the order of the State Railroad Commission, but should such a course be taken by any or several of them they might ask for an extension of time. Whether the commission would find it advisable to grant such a request, of course, is a matter for consideration of the commission only."

"In accordance with the decision of the State Railroad Commission the Southern Pacific, Santa Fe, Salt Lake, and Los Angeles railways, have 30 days, beginning May 20, in which to select their representatives for the committee."

That all of the parties involved will comply with the order of the Railroad Commission and appoint representatives to act on the committee which will direct the working operations in the construction of the union station at the Plaza and viaducts at Aliso, Macy and Seventh streets, is a matter of conjecture.

However, if such opposition by the parties might, at the end of the specified thirty days, according to Richard Sachse, chief engineer of the State Railroad Commission, ask for an extension of time in which to make their appointments. This is not likely, he said, as the parties have been given ample time to make their appointments. The decision of the commission was handed down last contemplated extension of time here with which to provide necessary transportation facilities for the commission's plan to eliminate duplicated facilities has the approval of leading engineers.

As soon as each party appoints its representative engineers for the committee of engineers the Railroad Commission will be notified, and if the order of the commission is not complied with, the time specified then legal action will be taken.

Mr. Sachse, under whose supervision all the engineering work leading up to the decision was made, "that any of the railway companies will refuse to comply with the order of the State Railroad Commission, but should such a course be taken by any or several of them they might ask for an extension of time. Whether the commission would find it advisable to grant such a request, of course, is a matter for consideration of the commission only."

The real trouble has now been removed by the commission. The way has been opened for an improvement that badly needed by the city of Los Angeles, through its officials and departments, co-operate in every possible way to complete this most vital undertaking and to make effective this decision at the earliest possible date."

In the opening paragraph of the resolution it was declared that the result of the commission's decision is very gratifying to the Council, and the City Clerk is instructed to write the commission appraising it of the Council's action.

According to Motorist A. E. McGillich, who was in charge of the street car, a one-man coach of the Southern Pacific freight line, the elderly pedestrian disregarded a signal from a traffic officer and walked across the street at the front corner of the southbound car.

A statement, as issued by Mr. Titcomb, said that it is premature to discuss the situation as a copy of the commission's decision has not yet been received.

FIVE MILLIONS FOR HOTEL.

Burned Ambassador to be Replaced With Magnificent Structure.

A five-million-dollar resort hotel, more pretensions in scope and equipment than anything yet attempted in Southern California, will rise from the ashes of the Ambassador Hotel at Santa Barbara. It was announced yesterday by E. J. T. Straus, head of the Ambassador Hotel System, who arrived at the Alexandria during the morning.

Work will start on this new structure just as soon as the last marks of the fire are cleared away from the still uninjured twenty-two-acre park in which the old hotel stood, Mr. Straus declared.

"My brother, E. J. Straus, and I have always been firm believers in the great future of Southern California," said Mr. Straus. "In fact, our faith has been such that we have made investments of many millions of dollars here. In planning a new hotel at Santa Barbara we are only showing our readiness to back our faith in this wonderful country again. I hope soon to be able to make a more definite announcement concerning our new project. I can say, however, that the officers of the Ambassador Hotel System are formulating plans for the construction of a new and greater structure representing the last word in hotel development for Santa Barbara."

"Santa Barbara, with its ocean, mountains, polo fields and golf links, offers more to the traveler (seeking recreation and rest) than any other place of which I know. Out-of-door sports, social life and every kind of art and beauty are at their best in this glorious spot."

"I am here primarily to go over matters concerning the first Santa Barbara, and until I have looked over the remaining property I can

DICT HUSBAND IN POISON CASE.

Accused of Slaying, Says He Will be Freed.

Recent Plan to Wed the 'Other Woman.'

Delay in Inquiry into Cyanide Death.

A prolonged consideration of the circumstances of the alleged cyanide poisoning of Mrs. John Smith on March 14, last, by grand jury yesterday resulted in an indictment for murder against the husband, Raymond W. Smith, and his wife, Mary Smith. The accusation was returned by Judge Reese, who stated that he will probably be arraigned on charges this morning.

"The decision of the commission meets with the approval of the city," asserted Councilman Mallard, "and as soon as the official notification reaches the Council no time will be lost in appointing the city's representatives to act on the committee which will direct the working operations in the construction of the union station at the Plaza and viaducts at Aliso, Macy and Seventh streets, is a matter of conjecture."

However, if such opposition by the parties might, at the end of the specified thirty days, according to Richard Sachse, chief engineer of the State Railroad Commission, ask for an extension of time in which to make their appointments. This is not likely, he said, as the parties have been given ample time to make their appointments. The decision of the commission was handed down last contemplated extension of time here with which to provide necessary transportation facilities for the commission's plan to eliminate duplicated facilities has the approval of leading engineers."

As soon as each party appoints its representative engineers for the committee of engineers the Railroad Commission will be notified, and if the order of the commission is not complied with, the time specified then legal action will be taken."

Mr. Sachse, under whose supervision all the engineering work leading up to the decision was made, "that any of the railway companies will refuse to comply with the order of the State Railroad Commission, but should such a course be taken by any or several of them they might ask for an extension of time. Whether the commission would find it advisable to grant such a request, of course, is a matter for consideration of the commission only."

The real trouble has now been removed by the commission. The way has been opened for an improvement that badly needed by the city of Los Angeles, through its officials and departments, co-operate in every possible way to complete this most vital undertaking and to make effective this decision at the earliest possible date."

In the opening paragraph of the resolution it was declared that the result of the commission's decision is very gratifying to the Council, and the City Clerk is instructed to write the commission appraising it of the Council's action."

A statement, as issued by Mr. Titcomb, said that it is premature to discuss the situation as a copy of the commission's decision has not yet been received."

The destruction of the Ambassador Hotel at Santa Barbara came as a great shock to all of us. For many years it had stood as a great California landmark, known in all parts of the civilized world. Guests from every part of the world have stopped there, attracted by the beauties of Santa Barbara and Southern California."

"While the company and Santa Barbara have lost much in the destruction of the Ambassador, we are deeply grateful that the dreadful catastrophe happened without loss of life. Above all are we indebted to our many friends in Santa Barbara who so valiantly helped in the emergency, and also to the fire department that did such efficient work."

SANTA BARBARA, April 27.—News from E. J. T. Straus, Los Angeles, that the finest hotel on the Coast would replace the Ambassador, destroyed by fire on the 14th inst., electrified Santa Barbara and had a determining effect upon business generally. The realty market particularly was strengthened by the announcement and late today it is reported that a dozen different realty deals were closed aggregating \$250,000, mostly in apartment houses.

At the same time the Arlington Hotel announced plans for adding sixty-four rooms to its present building and making other extensive changes to meet the growing demand for hotel accommodations in the Greater Southern California area.

After playing the role of Good Samaritan to a man out of work, J. H. Van Tuyl, a restaurant owner of 1408 East Ninth street, felt that it was hard indeed to have a man who was seen departing while Mr. Van Tuyl was across the street in a butcher shop.

cash register, but the hardest blow of all fell when he went to the kitchen, where he had left the stranger at work, and found that the dishes had not been washed. He told the police about the matter last night, described the suspect and had officers detailed to make a search for the man who, it was reported, was seen departing while Mr. Van Tuyl was across the street in a butcher shop.

DRY GOODS BODY FOR BULLOCK'S.

Wholesale Association Backs Proposition Three.

Acceptance of Donation Urged in Firm Resolution.

Associated Apparel Men Join in Indorsement.

The Wholesale Drygoods Association and the Associated Apparel Manufacturers of Los Angeles have gone on record in joint resolution which No. 3, which provides for the acceptance of Bullock's donation of \$15,000 a year to the city, in connection with the use of the space over St. Vincent's Place. The joint resolution of the two organizations, which is in line with the recommendations to voters made by the Municipal League, is as follows:

Whereas the records of the meetings of the City Council of Los Angeles show that the original proposition made by Bullock's to the city of Los Angeles was that Bullock's be given a lease granting to them the right to construct, operate and maintain an overhead structure or bridge over and across and an underground conduit or basement connection under a portion of St. Vincent's Place, in the city of Los Angeles, for a fixed term and at a stipulated rental, and

Whereas the title to the land known as St. Vincent's Place, is in Bullock's and other private property owners and not in said city, and the public's only interest in St. Vincent's Place is a right of passage over and across said land, and

Whereas the City Council was advised by the City Attorney's office in view of all the facts that the city had no legal right to charge Bullock's rental and make said lease and

Whereas, by reason of said advice, the City Council thereafter, to wit, in March 1917 and September, 1919, stated certain ordinances granting to Bullock's permits without compensation to the city to erect said structure and

Whereas, in pursuance of said permits, Bullock's expended and obligated itself to expend more than \$200,000, and

Whereas repeating ordinances will be submitted to the voters of Los Angeles on May 3, which repeating ordinances, if passed, would decrease the tearing down of structures erected by Bullock's in good faith of the city in the passage of said ordinances, and

Whereas, if the ordinance of these associations that the passage of said repealing ordinances would be a stain upon the fair name of the city, a breach of faith with Bullock's, causing Bullock's the loss of many thousands of dollars and resulting in no financial gain whatever to the city, and

BALLOON IN CLASH WITH AUTOMOBILE.

Two Are Hurt in New Sort of Traffic Accident Near Los Angeles Harbor.

An encounter between an automobile and a balloon near Los Angeles Harbor yesterday resulted in a new sort of traffic accident and in injury to Charles Gross, driver of the machine, and Cadet M. Rubin of the Arcadia Ballroom School, pilot of the balloon.

The automobile was almost destroyed by fire. Mr. Gross was burned on the face and arms and Cadet Rubin jumped twenty feet to the ground, suffering scratches and bruises.

He had dropped from an altitude of 800 feet after a flight of more than an hour, and his balloon was blown across telephone wires on Harbor Boulevard just north of Los Angeles Harbor, according to Lieut. C. E. Kane, in charge of the relief detachment following the balloon.

While the huge gas bag, with a capacity of 13,000 cubic feet of gas, was suspended in the wires, with the pilot's basket hanging over a road adjoining the boulevard, Mr. Gross attempted to pass in his automobile.

As the car got directly under the balloon the gas bag exploded, according to witnesses, and Mr. Gross, his wife, her mother and two children were barely able to escape death by jumping from the machine, which immediately was enveloped in flames. Cadet Rubin jumped from the basket to the ground.

The solo flight, under the direction of Lieut. Kane, started yesterday morning at 9 o'clock, and Cadet Rubin was the third to go up.

California Comfort in Fiber and Reed

Year 'round comfort is found in beautiful Southern California by the use of the new decorated reed and fiber furnishings. These furnishings come in exquisite shades—blues, greens, bronzes, frosted browns, soft grays—cushioned in spring-like upholsterings of imported silks in stunning combinations of gold and brilliant colorings, French cretonnes, and tapestries.

Prices run the gamut from the inexpensive to those commensurate with the highest art of furniture making.

Convenient Term Arrangements

Birch-Smith Furniture Co.

Finally, Frank Belcher, superintendent of Hollenbeck Park, organized a posse and left for the scene of the disturbance, determined to get the turtle dead or alive. When he arrived it had disappeared, no one knew where.

It is of the quality that seems firmer and foremost meant for carefully chosen trousseaus. It is from a maker widely known for unusually beautiful patterns.

Gowns, Petticoats, Bodices, Envelopes, Step-ins and Bloomers make up this fresh assortment.

Over silk foundations are lace and georgette garments in pastel tints with pleating, shirring and two-toned ribbon, giving wide diversity of treatment. Breakfast Coats and Negligees for Pullman wear are shown in many late styles.

Vachette Suit Cases, fitted or unfitted, are smart accessories to the bridal outfit.

Berth-High Trunks, Hat Trunks and Extra Capacity Trunks of the well-known Robinson-Hartmann brand, offer practical suggestions to the bride who is wondering how she may transport all that loveliness — her trousseau. The Trunks have an unusually deep garment section.

For these and other evening Slippers, rhinestone buckles may be bought separately if desired.

Fashioned by fairies and dipped in pools of glowing color—pools that double its sheen—Glove Silk Underwear appeals to the bride—draws her, magnet wise!

Real Irish and real Filé—originality of design—and every stitch taken by hand are features of the French batiste Lingerie that came in this past week.

It is of the quality that seems firmer and foremost meant for carefully chosen trousseaus. It is from a maker widely known for unusually beautiful patterns.

Gowns, Petticoats, Bodices, Envelopes, Step-ins and Bloomers make up this fresh assortment.

Mr. Anderson was arrested as he stepped from the train at St. Paul, Minn., where his personal property, which included a large amount of money, was found limited. When he received the telegram from St. Paul, he immediately left the whole proceeding in the hands of a former business associate, who had been working him with seeking to get him out of a criminal case out of a St. Paul court.

The Andersons are prominent residents of Riverdale, Ill.

THE PLAZA TERMINAL—A GRAND, POPULAR VICTORY.

Sweeping aside all protests and technical and political objections from private interests, the State Railroad Commission has issued a mandate directing the four railroads having terminals in Los Angeles to proceed forthwith to the elimination of grade crossings and the construction of a union terminal at the Plaza. The following extract from the opinion settles for all time the question of location:

The commission finds as a fact that public necessity and convenience demand a unification of terminal passenger facilities in Los Angeles and an order will be made requiring the interested carriers to prepare within a reasonable time detailed plans and estimates for an adequate union passenger station at the so-called Plaza site. We are satisfied that the so-called Plaza location is superior to other possible locations and that the union passenger station should be located at that site. The commission assumes that the city will carry out its repeatedly announced intention to further in every possible way the consummation of the general plan.

So ends the first and most important stage of a ten-year campaign. The triumph of the public is complete. This decision in favor of a free terminal in Los Angeles means as much to the commercial and industrial development of the city and its environs as did the act of Congress thirty years ago creating a free harbor at San Pedro.

Like many other American municipalities Los Angeles has been bottled up by greedy railroad interests. But the State Railroad Commission has at a single stroke smashed the neck of the bottle.

Now is the way cleared for the completion of a score of projects for a greater, more artistic and more beautiful metropolis. They have been waiting as impatiently as couriers at a race track for the Railroad Commission to open the Plaza gate.

Grade crossings will cease to reap their toll of death; for the commission has ordered that immediate steps be taken looking to their removal.

The Rock Island and the Western Pacific will no longer be barred from the great Southern California industrial district by reason of the impossibility of securing at a reasonable cost adequate terminal facilities.

Our harbor itself will now become free in fact as well as in name; for the way is cleared for a municipally owned railway extending from the union terminal to the city's wharves and docks at San Pedro. This road can be operated on a rental basis by the existing railroads and any new lines that build to the union terminal. The Southern Pacific and Salt Lake will no longer be able to block the harbor by reason of their monopoly over the approaches.

Plans for a civic center can reach their fruition; for development will proceed along established lines. The "city beautiful" can now pass from vision to accomplishment; and the present generation will live in the future as one that not only built castles in Spain, but put foundations under them. The dream of Blon J. Arnold, despite scoffers and hostile private interests, approaches its fulfillment.

By this decision the barriers are broken and the system of connecting boulevards, held for ten years in abeyance, can now be constructed. The plans for this system have already been outlined by the Commission. Forty appointed by the Mayor. They were impossible as long as the northern approaches to the city were barred and the deadly grade crossings remained.

When the next generation builds monuments to public places in grateful memory to those whose courage and breadth of view made possible what will be the great metropolis of the Pacific, Engineer Schae of the Railroad Commission will not be forgotten; for the Schae report will then be one of the most highly prized of all municipal documents. The system of subways which he has outlined will remove the present congestion in the streets of the business section and will contribute to the city's safety as well as to its beauty.

It is too much to hope that the private interests, which have fought with a stubbornness born of a shortsighted, selfish policy, every attempt to secure a union terminal, will now lay down their arms. They may delay, but they cannot evade. As servants of the public they can be made to obey their masters. The Railroad Commission has set forth clearly and unequivocally that the public interest demands the construction of a union terminal at the Plaza site and the courts are constituted to give effect to the public will, not to block it.

Appeals will doubtless be made to the Interstate Commerce Commission and to the Supreme Court of the United States. But those tribunals are fully aware of the selfish interest actuating such protests. The will of the people under representative government is the supreme authority. That will has been made manifest and, if the people do not flinch, no private interest can prevail against them. In making its decision the Railroad Commission proceeded slowly and with due regard to possible legal objections. The commissioners made sure of their ground. Slow deliberation was commendable, for it makes possible prompt and energetic action.

Now that the Railroad Commission has cleared the way, the people of Los Angeles must be prompt to assume their share of the great enterprise. The Council has already assured the commission by resolution that the city will use every endeavor to hasten the removal of the grade crossings and the construction of the union terminal and the municipal belt line to the harbor. The commission lays stress in its opinion on the fact that it counts upon the city to carry out its repeatedly announced intention to further in every possible way the consummation of the general plan which, by resolution, the city authorities have so strongly urged the commission to promulgate in this proceeding.

How petty now seem the objections that have been raised during the last ten years

"Straight Ahead!"

to a municipal project in every way so commendable! The Southern Pacific took the attitude when the Arnold report was made that "We don't intend to do it and you cannot make us do it. We purpose to spend our own money in our own way." It is so that private interest always argues.

In order to force the railroads to compliance it was necessary to amend the State Constitution. The people did not hesitate to do so. When a number of civic organizations headed by public-spirited citizens, demanded that the railroads should proceed to unify their terminals the Southern Pacific and Salt Lake instructed their attorneys to fight for delay in the State courts. At the same time they started a political and personal propaganda campaign charging those back of the project with bad faith. They misrepresented facts and used all the petting tactics known to the practice of the law. But their opposition served only to unify public opinion. "Commission after commission was appointed by the Railroad Board and by the Mayor. Every one of them, despite the political influence sought to be exerted, reported in favor of the union station at the Plaza site as the only solution of the problem. The report of Engineer Schae of the Railroad Commission was conclusive. The railroads attacked it in vain; and the Railroad Commission in its final decision gives a deserved acknowledgment to the people of the ablest public documents ever prepared by a department of the State government.

Legal barriers have been cleared away and the time for action has arrived. The city can set the example by hastening the plans for the system of connecting boulevards and for the construction of the belt line to the harbor. The Times is opposed on principle to municipal ownership and operation of utilities that can be operated to equal advantage by private interests. But where the public interest can be best served, as is the case of the belt line, then the public should not shrink from its responsibilities.

If the city builds the belt line from the union terminal to the harbor and gives all railroads entering the union station equal privileges over the road the harbor monopoly will be definitely broken. Under the conditions which existed before the decision for the union terminal was given it would have cost the Western Pacific as much to build a terminal here as to construct their line from San Jose to this city, and entrance to the harbor was impossible. A municipally owned belt line is the only solution of the problem, and for that reason The Times favors it.

From the beginning the contest has been one of the public against selfish private interests. The Times never doubted the result; for the whole history of the growth and development of Los Angeles is one of an indomitable public spirit. Our city was destined to greatness because it possessed a will to greatness that never has faltered and that draws its strength from the very obstacles which it overcomes.

SWEETENING REMARKS.
William Jennings Bryan has been in New York long enough to make the engaging prediction that the Democrats will sweep the country in the Congressional elections next year. The country will hardly need a sweeping act at that time and wouldn't intrust it to the Democrats, anyway. Somehow Democracy has not been a sweeping success. Mr. Bryan temporizes his prophecy with a condition. He stipulates that the Democrats must provide a plan and a declaration for getting the great bulk of taxes from the rich and the profiteers else they will not deserve the triumph they are coming. Mr. Bryan, having professed excessively in his voice and having become a rich man, is now smitten with the pangs of conscience and proposes to penalize his class. Yes we venture to say that when the tag-gatherer essays to tap him William will squeal and squirm.

A GOOD REVOLUTIONARY.

The farms of Southern California's success in co-operation has spread even beyond the borders of the United States. The California Fruit Growers' Exchange, which has its headquarters in Los Angeles, is pointed to in Canada as an excellent model. "This big co-operative citrus organization of the Golden State has revolutionized the marketing of oranges and lemons," says the Vernon News, an important paper of British Columbia. It urges the apple growers of the Okanagan district to follow the example and reap the rewards that come from standardizing the pack, studying the market problems and conducting a well-organized advertising campaign. The citrus growers, when they organized years ago, used the method of the fruit packer. But they were not only won commendation, but has put money into their pockets. The retail men of Winnipeg, the city in Central Canada where much of the Pacific Coast fruit is handled, have availed themselves of the lesson. They recently listened to instructive addresses from a Los Angeles merchandising expert who told them how the Fruit Growers' Exchange increases the sale of fruit by educating the people in the uses of oranges and lemons. This is part of the work which has brought about the revolution of which the Vernon publication speaks so highly. The local organization has won a victory over bad methods and the Canadians are now preparing to follow suit.

TRAITOR TALK.

Red trades-unionists in England naturally accuse labor-union leaders in the ranks of the transportation workers of selling out the cause when they halted the proposed strike of railroad men. Anyone who believes or shows an interest in his job is under the suspicion of being a traitor. He is charged with work for themselves or anybody else. What they desire is a complete upheaval that would turn the country over to the harsh-handed apostles of loot and pillage. It is no new thing for labor-union leaders to sell their authority one way or another. As often they barter it to cause a strike or to check one. In this case patriotism, public opinion and sober second thought compelled a halt of the strike programs, but because this means a reversal of plans the Reds instantly charge some of their own leaders with selling them out. They are charged with work for themselves or anybody else. What they desire is a complete upheaval that would turn the country over to the harsh-handed apostles of loot and pillage. It is no new thing for labor-union leaders to sell their authority one way or another. As often they barter it to cause a strike or to check one. The People and Their Daily Troubles

Distinguished Author Answers Argument Against New Library

Says "Loafers" in the Reading Room Are Often Men Who in Later Years Apply What They Have Learned for Betterment of World.

LOS ANGELES, April 28.—[To the Editor of The Times:] Mr. Alfred Brown steps into fame as the proponent of a new theory of civics. Heretofore it has been supposed that municipal institutions such as museums, schools and libraries were established and operated for the equal benefit of all the people. But Mr. Brown will not have it so. Libraries at least should be operated for the minor, if not the exclusive, benefit of the more fortunate part of the population, the taxpayers. Fortunately, that is, not because of having to pay taxes, but because of having something on which taxes can be paid.

Mr. Brown has been to the reference room of the Public Library and has been shocked to find numbers of persons there idly whiling away their time by poring over books. These persons, he is quite sure, belong to an "element" neither taxpayers nor financially of value to the city. It is a source of deep wonder to him "how so many men can be idle every day and sit around, at least making a pretense of reading, day in and day out." And therefore he strenuously protests against any expenditure of public money for a library building at the present time. Other public demands come first—a new City Hall, for instance. But no more money to furnish, housing, readers of books "with more commodious quarters or better surroundings."

For persons who may be merely pretending to read, these habits of the library must be strange. Mr. Brown assures us that they "know the exact location of their favorite books," at the noon hour they hold right on, taking their hunched by surreptitious dives into treasured volumes for immediate recovery on their return. One cannot but wonder at this close attachment to particular books. To a loafer killing time one book ought to be as good as another—a life of Buffalo Bill or a history of Chinese restaurants. One may also wonder as to just how Mr. Brown can be quite certain that none of these readers (real or seeming) are "taxpayers or financially of value to the city." Might it not happen, at least occasionally, that a financially valuable person should seek information? The law of probability would suggest a reply in the affirmative. But whatever the reply, it is quite apart from the matter of taxes, the matter of the reading room of the public library. The law of probability would suggest a reply in the affirmative. But whatever the reply, it is quite apart from the matter of taxes, the matter of the reading room of the public library.

three-quarters do not use the library. Possibly they are among the "loafers." The expression, "the other three-quarters," reveals a keen and enviable sense of proportion. As a matter of cold fact, the number represents more than one cardholder for every family in the city; and allowing for the nonreading public, such as babies, children, illiterates, politicians, bootleggers, jail inmates and believers in the theory of "public services for taxpayers only," it places Los Angeles very near the top among the cities of the United States as a city of library-using people. Possibly I have not understood, in this case, exactly what Mr. Brown is trying to mean. It is also possible that he himself is uncertain about his meaning.

Los Angeles urgently needs a library building that will be an ornament and an honor to the city and that will enable the library to extend and improve its inestimable service to the community. There are demands on the city, of course. Relief—and ample relief—for the excessive unemployment—there is no reason why the fulfilling of one duty should cancel or obstruct the fulfilling of the other. There has been shameful indifference in this matter, and it is high time to take effective action.

W. J. GHENT.

LETTERS TO "THE TIMES."

They Do Exist.

CLAREMONT, April 28.—[To the Editor of The Times:] In discussion of the Sunday-closing law, reference is frequently made to the so-called blue laws of New England. It has been said by some that these laws never actually existed. I am a native of Massachusetts, and lived there twenty-two years, and I can state that the blue laws not only existed in the past, but that certain of them have lasted to the present day. These laws, while seldom or never enforced, stand unrepelled upon the statute books of Massachusetts.

One of the laws forbade a man to work in the garden on Sunday. When the United States went to war with Germany, and everyone was urged to plant gardens, the old law was repealed, to enable men to spend their Sundays working in the gardens. It is against the law to distribute advertising matter on Sunday. One church was holding a special series of Sunday-evening meetings, and cards were printed giving the topics of the sermons. These cards were given to boys of the Sunday-school to distribute. They were stopped by the police because some of the cards were given out to people on Sunday. The law prohibiting Sunday business was enforced so strictly that some boys from the slums were arrested because they were carrying cards that they were playing in one of the city parks. The police called the game

GASOLINE ALLEY—SOMETHING'S WRONG WITH SKEEZIX

baseball because the boys were using a ball and bat. There were only three boys. The Puritans were splendid people in many ways, and we can learn much from them, but surely their religious intolerance, their outworn theology which made Sunday a day of gloom, and their desire to compel people to observe Sunday in their fashion, these things belong to the past and should not be carried into the twentieth century.

MRS. MARJORIE C. SMITH.

It's For Everyone.

LOS ANGELES, April 28.—[To the Editor of The Times:] Recently I heard Dr. Aronson, whose lecture courses are such a source of inspiration to students, social workers, and city planners, give the highest commendation to our Public Library. He has proven its unique value to the community, and to the community it serves. Today my attention has been called to an open letter to The Times, dated April 15, and signed "Alfred Brown." This gentleman seems to object to the use of our Public Library by people who are not card holders.

and who do not pay taxes here. I am wondering if we have a "public" library for it, not for all sorts and conditions of men, women and children. Every Public Library has a certain proportion of eccentric, unimportant-looking, insignificant patrons. Persons who are working on inventions, for instance, frequently become very short of money before obtaining a patent. Who knows but that these frequenters of our "Public Library" may be doing really important work? But in a democratic city like Los Angeles even those not engaged in productive work, even those who only possess time, should be encouraged to come to the library, and ample space should be provided for the needs of all. Our public schools do not exclude children whose parents are not taxpayers, and special provision is made for those who speak or below mental average. No guardian stands at the entrance of a park to inquire whether those entering are planning to spend their time there profitably to others than themselves. Los Angeles, famous for her open-hearted hospitality to strangers, the Mecca of gentleness, known and not to be known, will surely leave wide

open the door to that most democratic of her institutions, the Public Library. MRS. E. K. FOSTER.

Elevated Sidewalks. LOS ANGELES, April 28.—[To the Editor of The Times:] I hope that the movement now on for increased traffic room may not doom us to travel in subways. We came to California for sunshine and open air. Let us have the elevated sidewalk. Its advantages over subways are: All traffic in open air, above ground. Ease of construction; no interference with present sewers and pipes and cables. Lower cost than subway construction. Relief to all streets in the crowded district, not merely to one or two routes. Ease of extension; starting with a small area, the elevated sidewalk may be extended in all directions from time to time to any limit desired. Doubling of entrance and exit

space for theaters, halls, department stores and office buildings. Doubling of display windows. Since pedestrian traffic will be largely on the upper level, stores will open doors and windows there. Elimination of grade crossings; pedestrians will cross streets commonly on the upper level. Pedestrian traffic on the ground level will be small. Roadways may be widened as much as desired at the expense of the present sidewalks, leaving them narrow, the elevated walks overhanging the road. Widening the roadways on all business streets will give greater increase of car traffic room than are or two subway lines would provide. And the sidewalk space would be increased also. I have heard with interest the description of a plan to open a new thoroughfare between Broadway and Sixth streets, a glorified Mercantile Place, two miles long and 132 feet wide; a handsome business avenue, giving the city to east and west. It is a good plan; just what is needed to get the congested traffic off Broadway. But I regret to hear of the subway

THE NEW.
IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.
Per E. B.

Up-to-Date:

A bathing cape of cotton sponge in that most spring-like of colors, apple green. The cape has a lining of rubberized rayon in a shade of pale rose and there is an accompanying bag of the two materials, which will be a blessing to hold beach paraphernalia.

A sports suit in which a coat of canary-colored cloth is combined with a skirt of white satin striped crepe of heavy quality. The skirt is laid in narrow side plaits which give the effect of having been squeezed together.

Combinations of organdie and dotted Swiss, organdie and gingham and organdie and tulle, in summer gowns. The frock of organdie and silk is especially good when the latter material is used as a basque-like bodice above a three-tier skirt.

Now Is the Time to Buy:

The Sheffield platter or water pitcher or condiment dish you have been seeing and wishing for these past few years of prohibitive prices in silver plate. Not since the pre-war era has this most-to-be coveted were available for purchase at so moderate an outlay of money.

Silks, silks, for dresswear and sportswear. Silks for outer wear and for under wear. Silks for linings, silks for drapery, silks for cushions. Never were silks so varied in pattern, and colors or so unvaryingly alluring to the eye as at the present moment.

The folding tables and chairs for summer vacation use. The enthusiastic hiker and camper-out, his mind already dallying with details of equipment for the canyon cabin or the brown tent pitched beside a swift-running trout stream, is busily compiling lists, this spring day, of camp impediments of all sorts.

Plumage Brilliant.

An evening gown of flaming tulle, pointed and panned out, to fluff skirt drapery and deeply banded bodice and hips by half-veiled ribbons of silver brocade. What could be more instantly flamingly alive or slight with life and its joy? If the mere sound of the descriptive words does not create a picture in your mind's eye of dalmatian plumage, shades of darning, brilliant-plumaged birds, it is because the color-coordinator attachment has been left off of my typewriter.

It is almost superfluous to add that this paprika-like gown, which will enhance the charms of a black-haired, slow-eyed maiden, will be worn with black shoes and stockings and that, with it, will be carried a huge fan of ostrich, also black.

As Worn by "Hiss."

It is to be a white season for men. I am assured of this by the highest authority, authoritatively speaking, and hasten to pass on the information. Head of the time when "Hiss" summer shirt-shopping becomes a sub-

ject of paramount importance.

The glass of fashion of A. D. 1921 reflects a Beate Brunel class, rather severe combination of white and black. For his shirts he will choose models of white cotton, among the heavier Oxford—ideal for selling when worn without a coat or, most approved by fashion, serotop cloth. This last is the same material, smooth surfaced, cloth manufactured by millions of yards during the war years and appreciated, since that time, by purveyors of smart haberdashery for its manifold virtues of texture. It goes without saying that the soft collar—too comfortable and suitable by far to be deluged—is the universal finish to all types of daytime shirts.

Follows, as the night day, the lighted scarf of black knitted silk which, despite the comings and goings of cravats of brilliant hues, retains its place of precedence in the favor of the man of impeccable taste. For wear with the tuxedo, shirts of finely plaited white silk of quality are shown and, to accompany these, the knowing salesman gently directs attention to the direction of buttons of smoked pear. The pearl fasteners of untinted white, it is insinuated, are used only with full evening dress.

Pearls from the Sea.

Worth a king's ransom looked the pearl cord and its dependent tassel, upon which I feasted my eyes and nourished my love for the beautiful the other day. The necklace, as it was drawn forth from its case, in that shop of ultracleanliness as to seem, and spread for my glowing gaze on a square of black velvet, was so perfect in its lustrous loveliness that it baffled description. One thought of the slender strands of superbly matched strands, plundered of ocean's depths, in terms of fairy imagery, condensed moonbeams, moonbeams, but one did not apply to them the commonplace adjectives of every-day life.

It was a necklace to enhance the court vestments of a princess or, equally, to adorn the fair throat of a simply clad, very young girl.

Fashion Insets That:

The long or jacket-length circular cape is popular. Jumpers made from plaid shawls neatly tilted at the back. The smartest animal scarf is of white or light gray fox. A satin-ribbed Georgie is used for dresses and blouses.

Everywhere one sees drapery used without restriction. Medium-sized hats are sometimes neatly tilted at the back.

Many of the smartest frocks close with a single button. Black tulle are worn with any color costume or stockings.

Fringe in perpendicular lines is seen on restaurant. A silk ratine is used for suits, skirts and separate waists.

Little ribbon loops make a favorite trimming for frocks. Soft gray and tan are especially good for waists this spring.

THREE ARE BANKRUPT.

Harley L. Pelroy, a chicken rancher of Lankershim, filed a petition in bankruptcy in the United States District Court yesterday. He says his debts amount to \$223,328, and gives his assets as \$245. Edward L. Corsey, an auto painter of Hermosa Beach, owes \$1332, and has \$455 to pay it with, according to a petition filed in the same court. Jugat Singh, a Hindu rancher of Imperial Valley, filed a similar petition. He owes \$7199, and his assets are but \$25.

CAR CAMPANY IS SUE.

As the result of injuries suffered when a Los Angeles Railway car ran away, jumped the rails and turned over on its side at Avenue 26 and Griffin avenue, February 12, last, Flora E. and Jennie M. Holst, vice principals of the car, brought suit against the company yesterday, demanding a total of \$25,000 damages.

Wedding Silver

Let your gift to the bride be Nordlinger silver. Its intrinsic value is lasting; its beauty outlives changing fashions; it is handed down as an heirloom and is cherished by other generations.

Wedding gifts of Nordlinger silver are still in use by the children of the Los Angeles brides of 1869.

BY VIRGINIA WOODS.

For Mr. and Mrs. Huntington. As a courtesy to Mr. and Mrs. Henry E. Huntington of San Marino, who recently returned home after an extended absence abroad and in New York, Col. and Mrs. George J. Denis are giving a handsomely appointed luncheon at the California Club today. They are to have a company of twenty-six notable men and women.

For Mrs. Wells. To say an revoir to Mrs. G. W. Wells, who leaves next week for New York and then for a tour of the world, Mrs. C. Q. Stanton is entertaining a small group at tea this afternoon.

At Dinner-Dance. Mr. and Mrs. L. C. Brand are to give a dinner and dancing party Saturday evening at the Los Angeles Country Club and are to have forty guests.

To Entertain Fourteen. Mr. and Mrs. Francis Pierpont Davis are to entertain a company of fourteen at a dinner-dance at the Los Angeles Country Club Saturday evening.

For Mrs. Severance. As a farewell courtesy to Mrs. Corderio A. Severance, who is returning to her home in St. Paul, Minn., today, her sister-in-law, Mrs. William Francis Howard, entertained at a cozy little tea on Tuesday at the Los Angeles Country Club. The table was adorned with bright hued flowers. Among the guests there to say good-by were Mrs. Hugh Brown, most attractive matron from Tonopah, Nev.; Mrs. Albert Sherman Hoyt, Mrs. A. C. Billocke, Mrs. Forrester, Mrs. Robert London, Mrs. Hansen Moore, Mrs. Walter MacPherson, Mrs. Alexander B. Barrett, Mrs. Milbank Johnson, Mrs. G. D. Braman, Miss Thomas, Mrs. Harry Callender, Mrs. William Russell, Mrs. Squire, Mrs. Fred Todd and a few others.

Yesterday Mrs. Leafe Sloan-Orcutt gave a handsome luncheon at the Ambassador in honor of Mrs. Severance, taking her guests later to the tea and dance given by the Assistance League.

Mrs. Mason's Tea. Interest centers in the tea being planned by Mrs. Dean Mason for next Wednesday afternoon in honor of the visiting artists attending the State Federation of Music Clubs, which will be in session here Sunday and Monday.

GEOGRAPHICAL CHARADES.

Charades never grow old-fashioned. The same methods are used as for the pantomime described last week, only that the audience (consisting of players and spectators) in the charade of the moment must guess the charade word as it is acted, syllable by syllable. Rooms separated by sliding or folding doors are best for charade acting, although a double doorway leading to the hall will do as well for stage effect. For an example of geographical charade acting, see Cape Farewell. The leader announces "Cape Farewell," and one of the actors stands by the doorway with a cape over his shoulders. Then the leader calls, "Second syllable," and a player appears with "Conductors" on his cap and a car ticket in his hand (fare). The third syllable may be represented by Rebecca at the well. The leader next calls, "Second and third syllables together," and two players appear, bidding each other good-by one with a valise in hand (fare) and the other with a cape over his shoulders. Then the leader announces that the charade refers to a point of land in a cold country. The quick-witted audience guesses that it is the former actors change places with them.

Suggestive names for geographical charades: Madagascari, Denmark, Manhattan, Long Branch, Portland, Baltic, West Point, Chinatown, Mandalay, Belfast, Tyrol, etc.

Development of Imperial to be Chambers' Goal.

(EXCLUSIVE DISPATCH.) EL CENTRO, April 27.—Many factors in the development of Imperial county are scheduled for discussion at the monthly meeting and banquet of the Associated Chambers of Commerce at Westmoreland, Friday evening, which will be attended by delegates from all chambers of commerce of the county, representatives of the County Farm Bureau, and city and county officials.

One project to which an effort probably will be made to add impetus will be the "one-man farm" proposition which has met indorsement throughout Imperial Valley. Closely allied with this is the question of diversified farming. It is believed that representatives of the farm bureau, who have met here, have been invited to attend the meeting, will be able to furnish valuable information. This question will be incorporated in information disseminated through the various promotion bodies of the county.

SOON TO CEMENT OFF PAINTED HILLS WELL.

(EXCLUSIVE DISPATCH.) HOLTVILLE, April 27.—Work of cementing off the No. 1 well of the Painted Hills Oil Company will be started at once, the directors having decided upon such a step after their meeting here. It is said that the company has strong oil indications in the prospect hole and expects to be able to obtain a few weeks to bring in the well.

SENTENCED TO PRISON.

John Beam and Louis Peterson were sentenced by Judge Willis yesterday to serve one to four years in a charge of having received money under a false character, to wit, accusation that they had pleaded guilty. They were also accused of having forged a Western Union money order for \$700, payable to James Evans, Jr.

HELD ON STATUTORY CHARGE.

Arthur H. Allen, Jr., accused of committing a statutory offense against Martha Miller, 16-year-old heiress of Whittier, was held to answer yesterday by Justice Baird. Upon request of Dep. Dist. Atty. Costello, bail was fixed at \$2000. Bail was furnished and the defendant released.

HELD ON STATUTORY CHARGE.

John Beam and Louis Peterson were sentenced by Judge Willis yesterday to serve one to four years in a charge of having received money under a false character, to wit, accusation that they had pleaded guilty. They were also accused of having forged a Western Union money order for \$700, payable to James Evans, Jr.

URGES SAVING OF REDWOODS.

Ebell Head Speaks Word for Forest Conservation.

Mayorality Candidates Will Speak to Study Club.

Pi Beta Phi Plans Observance of Founders' Day.

BY MYRA NYE.

A color picture lecture, "The California Redwoods," will be given at 2:30 p. m. Monday by Francis M. Fultz before the Ebell Club in its clubhouse.

A committee of women, who are particularly interested in the conservation of these magnificent California trees has been organized to secure membership for the "Save-the-Redwoods League."

Mrs. Charles H. Toll, president of the club, is one of the three women in the state to be a member of the board of counselors of this organization. She says of the meeting Monday: "It is the earnest desire of the executive committee that the club shall be well presented in this conservation movement. If everyone could see the forest, and the devastation to which these giants of the forest are succumbing even along the highways there would be such a protest that the State would ring with the voices. Let Ebell help to the limit of its capacity in this movement."

Through the instrumentality of the National Geographic Society, three additional tracts of giant sequoia Washingtonians in the Sequoia government. The acreage contains some of the finest examples of the earth's oldest trees and makes a total of 1276 acres of Sequoia Washingtonians in the Sequoia National Park for the enjoyment of Californians and their guests.

Republican Study Club.

The candidates for Mayor will be the speakers at the Republican Study Club's meeting at 2:30 p. m. tomorrow in the auditorium of the Union League Club. Special acceptance has been given to the candidates, Mayor Boyle Workman and George Cryer, and it is anticipated that Hayden Brown, Mayor of the city, will also accept the invitation to speak.

Frank A. Kelley will open the meeting with his customary resume of current political events, and following the address and the candidates for Mayor, time will be given for questions from the floor.

Pi Beta Phi.

At the California Club today at 7 p. m. 100 members of the Gamma Chapter and Los Angeles Alumnae Club of the Pi Beta Phi will be seated at the banquet table, celebrating the annual founders' day. All active members and alumnae are the guests. Miss Adele Humphries, vice-principal of Polytechnic High School, will preside as toastmistress. Miss Julia Ellen Rogers, the author, will respond to the toast. "Our Founders," Miss Evelyn Dayman, "The Pi Beta Phi of Today," Miss Gertrude Rothe, "The Pi Beta Phi of Tomorrow," and Mrs. F. H. Curtis will tell of the national convention which is to be held in Michigan the first week in July.

Mrs. J. H. Hartley is in charge of the banquet arrangements, and the tables will be adorned with the society colors of blue and silver, and expressed in dark carnations and the silver larkspur.

Time-to-Time Club.

An organization whose membership includes school women in Southern California will formally be organized with the business and professional Women's Clubs of Los Angeles county today at 7:30 p. m. at the home of James W. Foley will read his address, "The Women's Clubs of Los Angeles county," and Miss Mason, accompanist, will play.

Miss Juliette Pierce, vice-principal of the San Pedro High School, is president of the club, and will be the toastmistress at the luncheon.

Echo Park Mothers' Club.

Mrs. R. D. Winn is chairman tomorrow for the Echo Park Mothers' Club. At 10 a. m. there will be the regular gymnasium class, followed by Miss Hortense Williams, Miss Gertrude Darrow will review some of the latest books the hour following. After the program members and friends of the club are invited to take their lunch at the home of Mrs. Caroline M. Darby at 2305 Echo Park avenue for a social hour.

As National Members.

Members of the Chi Delta Phi local sorority at the University of Southern California will formally be taken into the Delta Delta Delta national sorority tomorrow night at a banquet at the Ambassador.

The active chapter roll numbers about thirty-three and about seventy-five, including the alumnae are expected to be present at the installation banquet. Miss Agnes Hubbard, head of the western province of the sorority, will officiate. A reception will be given at the Chi Delta Phi house Saturday evening.

HELD ON STATUTORY CHARGE.

John Beam and Louis Peterson were sentenced by Judge Willis yesterday to serve one to four years in a charge of having received money under a false character, to wit, accusation that they had pleaded guilty. They were also accused of having forged a Western Union money order for \$700, payable to James Evans, Jr.

Back-Lace Warner's Front-Lace Corsets

are designed in many styles which we like to recommend for growing girls, for women with slim figures and also for many women past middle age. We can show you a number of such little models, notable for their light boning, their extreme comfort and their excellent design. The girl from fourteen to twenty, so corseted, will be more erect and less subject to fatigue. And since every Warner's is guaranteed, you may be sure of its dependability.

ASK THREE-CENT TAX ON LEMONS.

Rate Declared Minimum for Industry's Revival.

Request Taken Up with the Subcommittee.

California Delegation Seeks Protective Wall.

Increase of the tariff on raw lemons from 2 cents to 3 cents a pound in the permanent tariff schedule is urged in a communication from the California delegation to the agricultural subcommittee of the Ways and Means Committee of Congress. The letter, which follows, declares that 2 cents a pound is the minimum which will permit the survival of the California lemon industry.

"We, the undersigned, composing the California delegation of the House of Representatives, desire to bring to your attention the vital necessity of increasing the tariff on raw lemons from 2 cents a pound, as fixed in the emergency tariff schedule, to 3 cents a pound in the permanent tariff schedule, which you are preparing.

"The present rate is entirely inadequate if the lemon industry in California is to survive, and 2 cents a pound is the minimum amount which will cover the difference in production costs in this country and abroad.

"The State of California produces approximately 85 per cent of all the lemons grown in the United States, and this production is entirely adequate to supply the needs of the nation; during the last year 10,000 carloads of lemons were shipped and dumped to rot, and many acres of these were grubbed up, because of

MAY KEEP "KIDNAPED" BOY.

Willie Barrett's mother, Mrs. Marian A. Barrett, and Ashfield Stow, her attorney, need not go back to North Carolina, but may remain in this State or go anywhere else they please, unless Willie's father, Dr. Frederick J. Barrett of New York, succeeds in kidnapping the boy once more.

This, in effect, is the meaning of the decision by Gov. Stephens in Sacramento yesterday, when he denied the request of the State of North Carolina for the extradition of Mrs. Barrett and Mr. Stow for the purpose of taking them to Asheville, where they are charged with having kidnapped 12-year-old William H. Barrett last February.

The boy has been the object of controversy and kidnappings for more than a year, since Dr. Barrett first obtained the custody of the child in the New York courts. Mrs. Barrett, who formerly lived at the Hollywood Hotel, and whose sister and mother live in Hollywood, is now one kidnapping to the good. Dr. Barrett will have to get the boy

without the help of the State of California.

The request for extradition was denied on three grounds, according to Sacramento dispatches. The first held that it would be extradited in furtherance of a civil process. It was held in the second place that no crime was committed by Mrs. Barrett in taking possession of her own child under the circumstances of the case, and it was held by the Governor that a writ of habeas corpus issued by a New York court, awarding the custody of the child to the father, is of no effect in North Carolina.

The series of sensational kidnappings began in New York following divorce proceedings, stretched across the continent to Los Angeles, from here back to Arizona, where the boy was recaptured by the mother and the Nick Harris detectives in a midnight camp at New Meadows, Nevada and San Francisco, back to New York, to North Carolina, and once again back to California.

Inadequate protective measures, and the resultant inability to compete with Italian importations.

"We wish to thoroughly impress upon you that the 2-cent rate is entirely inadequate, and will only serve to prevent further destruction of the groves by the owners until a 3-cent rate can be enacted into the permanent tariff law.

"Trusting that you will give heed to our representation and save the great industry in which many thousands of American capital is invested, there being 50,000 acres in lemons valued at an average of \$2500 per acre, we are,

Respectfully yours,

[Signed] "Clarence F. Lea, First District; John E. Baker, Second District; Charles E. Curry, Third District; Julius Kahn, Fourth District; John L. Nolan, Fifth District; John A. Elston, Sixth District; Henry S. Barbour, Seventh District; Arthur M. Free, Eighth District; Walter Z. Lindeberg, Ninth District; Henry Z. Osborne, Tenth District; Phil D. Swings, Eleventh District."

CARTOON CRITICISM

APPEAL SUSTAINED.

SUPREME COURT HANDS DOWN IMPORTANT DECISION IN SNIVELY LIBEL SUIT.

The State Supreme court yesterday handed down an important decision defining the right to recover from a newspaper for libel action for purported damages, in reversing the judgment of the local Superior and District courts, which gave and affirmed a judgment for \$10,000 in favor of C. E. Snively against the Second Publishing Company of this city. It will be necessary to try the case over again.

The libel action was based on a cartoon that appeared in the Record when the complainant was Chief of Police of the city under Mayor Sebastian. The court holds that if a publisher honestly believes that the person of whom he speaks or writes is guilty of a crime of a nature that makes it his duty to the interests of those whom he addresses, it is as much his right and duty to declare to them the facts as it would be to tell them any other fact pertinent to the occasion and material to their interests.

The court proceeds: "If the publisher of a newspaper honestly believes that a public officer has committed a crime of a nature which would indicate that he is unfit for the office he holds, we think he is not liable for damages under the code in a civil action for libel, if, without malice, and so believing, publishes a statement to that effect to the community served by the officer."

FIRST ILLNESS FATAL.

Former City Official Dies at Home in Ontario.

[EXCLUSIVE DISPATCH.]
ONTARIO, April 27.—After suffering for three weeks with sleeping sickness which developed pneumonia, former City Councillman John Tullum Caldwell died today at his home, 117 East D street, at the age of 73 years.

The illness which proved fatal was the first in the long life of the former Councillman, a physician never having been ill, and he attended him until early this month.

Mr. Caldwell is survived by his widow, one daughter, Mrs. Alice Caldwell of Delta, Colo., who was here at the time of his death, and one son, Harold Y. Caldwell of Ontario. He had been a resident of California for twenty-eight years and of Ontario eighteen years. He served two terms on the City Council prior to 1916, and recently had engaged in the real estate business.

The funeral is to be held from Draper's Chapel, Friday afternoon at 2:30 o'clock, with Rev. George W. Irwin, pastor of the First Methodist Church, officiating. Interment will be in Bellevue Cemetery.

Victory is Won by Psychologist; to Keep License.

A petition of the Better Business Bureau to revoke the license of Prof. James A. Murdock, psychologist, was denied by the Board of Supervisors yesterday. The charges that Prof. Murdock misadvised business was considered at an all-day hearing before the Supervisors. Prof. Murdock, defending his reputation and calling to his aid a number of men and women who had received treatment at his hands. He was represented by Attorney Minor Moore. The motion to deny the petition was made by Supervisor McCellan.

ACTION IS ATTACKED.

Question Whether Baja California Can Maintain Suit is Raised.

The question was raised on demurrer in Judge Burrell's court yesterday whether the Distrito Norte de la Baja California can maintain an action to recover \$35,000 from J. Z. Uribe. The story in the complaint dates back to the days of Gov. Cantu, and it is asserted that the money sought belongs to the State.

Judge Burrell said he would sustain the demurrer, with leave to amend, on the theory that the complaint does not show the district is a political subdivision of the republic of Mexico.

A New Achievement in the Making of a Rich and Beautiful Magazine

THE May CENTURY is a new CENTURY. New in the beauty of its cover, its decoration and its illustrations. New in the charm of paper and typographical dress. New in the richness of its editorial contents. We believe you will say it is by far the finest magazine you have ever seen.

Get this new CENTURY today. You will find a superb reading section of one hundred and sixty pages, with a brilliant collection of short stories,

articles and essays by the foremost writers of the day. Sinclair Lewis, author of "Main Street," Sir Gilbert Murray, Alexander Black, Phyllis Bottome, Frederick O'Brien—These are but a few of the notable contributors to the May CENTURY.

With this May issue, the leadership of the CENTURY for more than fifty years is emphasized. A new standard is set; a new triumph in magazine making is achieved.

The CENTURY for May

Under the editorial direction of Glenn Frank, the new CENTURY is attracting a notable group of contributors. In THE CENTURY with its proud traditions, they recognize a worthy vehicle for the finest expressions of art and letters. The contents of the May issue are a promise for the future.

What you will find in the May CENTURY
The frontispiece is a beautiful color-tone portrait of John S. Sargent, engraved for The CENTURY by Davison.

THE POST-MORTEM MURDER
By Sinclair Lewis
An exceptionally stirring short story by the author of "Main Street."

THE TROUBLESOMENESS OF BULBULS
By Edward A. Morphy
A fascinating essay-story of Indian Jungles, wonderfully illustrated.

AT HOME IN THE MODERN WORLD
By Sir Gilbert Murray
A thoughtful article by one of Britain's foremost scholars. It discusses the biggest problem that engrosses the world today.

THE LATEST THING
By Alexander Black
An essay by the author of "The Great Desire" which created a literary sensation last year, and whose novel "The Seventh Angel" is just off the press.

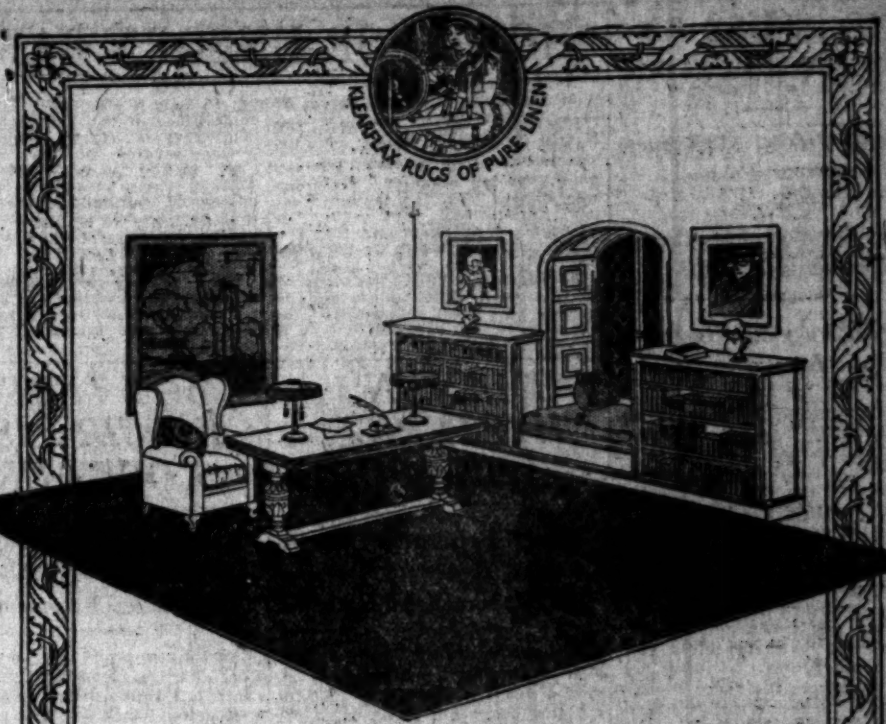

TO THE STARS
By Anna Yanterska
A human, self-story by this remarkable young writer to whom many critics gave first place in the fiction of 1920. Splendidly illustrated.

Travel Articles by Harry Franck and Charles Hanson Towne, "Mr. Lansing's Plain Speech" by Herbert Adams Gibbons, "The Tide of Affairs" Editorial Forum conducted by the Editor of CENTURY, Glenn Frank, and a number of delightful poems complete this most remarkable magazine.

While upholding a fine literary tradition, THE CENTURY is a vital publication, alive to the great problems and the best thought of our time. It is a magazine for all people of intelligence and appreciation.

All News-dealers—TODAY—50 cents

Stop at your news-stand today. Buy a copy of the May CENTURY. Examine it from cover to cover. It will exceed your highest expectations. Then to be certain THE CENTURY reaches your library table every month, forward your subscription at \$5 per year to THE CENTURY COMPANY, Publishers, 353 Fourth Avenue, New York.

Pure LINEN Rugs For Your Floors

As pure linen as are your snowy Damasks or fine linen handkerchiefs. Thick, heavy linen too, warp and filling with all the beauty, all the richness, all the enduring charm of linen. Picture a floor covering—rich, distinctive, beautiful—of linen as genuine as are those priceless family heirlooms of yours.

KLEARFLAX LINEN RUGS AND CARPETINGS are exactly that—every single thread of them.

Perhaps you never saw linen woven into such a thick and sturdy fabric, but you'll recognize its true character at a glance.

And the colors? Nine of them in such delightful solid tones. They lend themselves to any decorative thought and fairly radiate a spirit of restfulness to the entire room.

And wear? Long years of service alone will prove that the wear of linen is the wear of Klearflax.

The price? Almost unbelievable—\$5.50 for a 9x12 rug containing nearly 50 pounds of pure linen.

See them in all leading rug departments.

KLEARFLAX RUGS AND CARPETINGS are equally desirable for hotels, business offices, theatres and other institutions.

BOND ISSUES TO
BE ON BALLOTS.Council Orders Ordinances
Drawn for Passage.Power Development Project
Not Included in List.Sewer, Library and Harbor to
Take Largest Sums.

The recommendation of its special committee regarding the placing of six bond issues on the ballot at the June election was approved yesterday by the City Council and the City Attorney was instructed to prepare the ordinances necessary to be submitted to the voters. The total value of the bonds is \$24,800,000 and the issues are to be designated as revenue producing and non revenue producing improvement.

If adopted by the required two-thirds majority of the voters the bonds would provide funds for the new outfall sewer, a public library building, viaducts for the elimination of grade crossings, police and fire alarm system, harbor development and extensions to the water system.

In considering the recommendations of the committee the Council made no changes. The proposal to submit a bond proposal for \$12,000,000 to provide additions to the power development was not included in the recommendation forwarded to the Council. A special committee from the water board had been named to confer with the Council at yesterday's session, but it did not attend the meeting. It was intimated in the Council meeting that the power bonds would come up at some later date, when a special election would be called.

An arranged by the committee the following division of the bonds is made for the non revenue producing improvements: Outfall sewer, \$12,000,000; library building, \$2,000,000; viaducts for grade crossings elimination, \$1,000,000; fire and police telegraph alarm system, \$1,500,000.

The revenue producing improvements to be taken care of by the proposed bonds are: Harbor development, \$4,800,000; Reservoirs, pipeline extensions and other improvement in the water department under the Mulholland plan, \$3,000,000.

ACCUSED SYNDICALISTS
UNDER INDICTMENT.

Emil Madson and Matt Kilek, said to be delegates and organizers of the F.W.W., were indicted yesterday by the county grand jury on a charge of criminal syndicalism. They are accused of instigating others into the I.W.W. Last Monday Judge Beeve said both defendants are under arrest.

CHEMICALS FROM KEMP.
The monthly meeting of the Southern California section of the American Chemical Society will be held this evening at 715 South Broadway. Dr. J. W. Turrentine of the United States Department of Agriculture will speak on "Chemicals from Kelp." Dr. Turrentine is chemist in charge of the investigation of fertilizer resources at the experimental kelp plant at Summerland.

The Ideal Piano For Small Homes
and Apartments—THE BRAMBACH
Baby Grand Piano

You may have thought you hadn't room in your home for a piano—A GRAND PIANO—but have you seen the BRAMBACH miniature grand; have you had an opportunity to admire its graceful lines; have you heard its exquisite tone?

The BRAMBACH Baby Grand Piano occupies little more space in your home than an upright piano would, and it makes a far better appearance. It is natural that you should prefer a Grand to an Upright, for, just as the Upright succeeded the square piano in the past, so the Baby Grand is fast displacing the Upright.

Here at Barker Bros., you may choose between two very beautiful styles in this renowned make of pianos, one model as illustrated, in plain satin finish Mahogany; the other, in Queen Anne style.

HOME FOR UNBORN BABE.

Mrs. Cecelia Reinagel, aged 26 years, of 1906 Sunset Boulevard, the mother of eight children, who on Tuesday tearfully offered her unborn babe for adoption, yesterday was soled with the thought that her appeal had met with the kindness of strangers and that she would not have to give up her child after all.

Arrangements have been made by the Salvation Army to provide the mother with what is needed for the care of the little mortal who is soon to come into the world, according to Brig. C. R. Boyd, divisional commander of the Salvation Army in Southern California. Immediately upon reading of the mother's plight in The Times yesterday, Mrs. Adit. T. Rogers visited the Reinagel home, and when told by the mother that her heart was against giving her child away, arranged things so that the babe may come and be with its parent.

Dr. L. Jesse Citron, who has been attending the mother, has also offered to perform an operation on Mrs. Reinagel for \$500 free of charge.

WOMAN, IN
HYSTERIC, WINS POINT.

Court Refuses to Restore
Order Providing for Her
to Support Aged Husband.

The troubles of the Roth family—Reuben and Fannie—which have occupied much of the court's time for months, broke out again yesterday when Mrs. Roth, becoming hysterical, slipped from the witness chair in Judge Burnell's department and fell on the floor. Her hysteria was induced by the efforts of her aged and invalid husband to have a restored an order recently vacated compelling her to pay him \$15 a month for his support.

When Mrs. Roth was replaced on the stand, she would not calm down. The court cautioned her; her attorney, Ben Lewis, constantly called to her "B-h-h-h" and Bailiff Rice held out a promise of going to jail.

In despair, Judge Burnell said he would continue the case.

"This thing happens every time she comes here, Your Honor," declared Attorney Horowitz and Finkenstein.

"I know it does," was the reply.

He gave Mrs. Roth another chance and finally on her showing she had only \$15 a month herself coming in, he denied the motion to restore the order.

Mr. Roth asserts his wife got from him on a quitclaim deed property worth \$4000. He brought suit to set aside the deed and was denied as he could not show it. Next week Mrs. Roth's suit for divorce will be tried. In the past, three or four divorce and separate maintenance actions have been started by the couple.

WELCOME IS PLANNED
FOR UNIVERSITY CLUB.

Welcoming new members and members of the University Club, a dinner, smoker and vaudeville entertainment at its new club quarters on Hill street Friday evening. The University Club, with a membership of more than 1100, moved into special quarters with the Union League on May 1, remaining with the latter organization until the new University Club building stands completed, which means for a period of between nine and twelve months. A large delegation of University men is expected to be welcomed at the smoker.

The program will include music, vaudeville and dancing acts, and is in charge of the University Club. In charge of the evening, S. K. Moses and Paul Langworthy.

TWO ANGELENOS
GET FAT PLUMS.

Benedict Goes to Railroad
Commission Place.

O'Brien Picked for State
Board of Control.

Later Cannot Leave Work
for City Before June.

Appointment of H. Stanley Benedict and P. P. O'Brien, both of Los Angeles, to the State Railroad Commission and the State Board of Control, respectively, was announced yesterday in Sacramento by Martin Madden, private secretary to Gov. Stephens. The appointments followed acceptance by the Governor of the resignation of Frank R. Devlin from the Railroad Commission, effective May 1.

Mr. Benedict is a member of the State Board of Control with office here and in Sacramento, and Mr. O'Brien is the president of the Board of Public Works. The vacancy created by Mr. Benedict's promotion to the railroad body is to be filled by Mr. O'Brien, according to the Governor's plans.

Mr. O'Brien, at his office at the City Hall, said yesterday that the first intimation of the appointment came to him shortly before noon when Gov. Stephens called him on the long distance telephone and asked him to serve on the State board.

"I told the Governor that I would be very glad to serve, so far as I could tell at the present time, but could not accept the position until June 1," Mr. O'Brien said.

Both Mr. Benedict and Mr. O'Brien are prominently known in Los Angeles and Southern California through their connections with city and State projects, offices and politics. Mr. Benedict has been a resident of Los Angeles for thirty-five years, and is an attorney and former member of the State Legislature.

O'Brien's work on the Public Works Board has placed him in close touch with matters in the city. He has been in the city for many years, and has been in the city for many years, and has been in the city for many years.

No reason was given for his resignation by Mr. Devlin. Mr. Madden said in announcing the new appointments. Reports that Mr. Devlin would resign soon have been current for several weeks. Mr. Devlin succeeded O. Edgerton as president of the Railroad Commission when the latter's term expired recently.

Mr. Madden added that Chester H. Rowell, who replaced Mr. Edgerton on the commission, was contemplating the vacating of his position this summer when he is to take a sabbatical leave.

SAN FRANCISCO, April 27.—[By the Associated Press.] President Frank R. Devlin of the Railroad Commission said today that he had resigned his position on account of his desire to return to general practice of the law, in which he had been previously engaged for eight years.

He announced he submitted his resignation two weeks ago.

Mr. Devlin formerly was District Attorney of Solano county, where he also had served as Superior Judge. He was a member of the 1911 Legislature.

INDUSTRIES PREPARE
FREIGHT CUT PLANS.

CANTALOUPE, VEGETABLE AND CITRUS INTERESTS DRAFT ARGUMENT PLANS.

Representatives of the citrus, vegetable and cantaloupe interests of Southern California held meetings yesterday and drafted plans for presentation of arguments at the hearing to be conducted in this on Tuesday on fruit and vegetable freight rates by Henry J. Ford, representative of the Interstate Commerce Commission.

The California Citrus League at a meeting yesterday named a special committee, headed by G. Harold Powell, to compile facts and figures on the citrus industry for presentation at the hearing. The other members of the committee are: George R. Channing, R. W. Hanson, F. O. Wallachlagger and H. S. Hazeltine.

At a meeting of traffic managers of the vegetable and cantaloupe interests, plans were completed for the presentation of the different phases of the industries' plea at the hearing next week. The meeting was held at the headquarters of the California Vegetable Union; Field Sherman of the Randolph Marketing Company; onions by a representative of the Cohen, Mann & Kahn Company, and cantaloupes by Lee S. Gilbert, representing the American Fruit Growers, Inc.

A final meeting of the vegetable and cantaloupe committee will be held in the headquarters of the California Vegetable Union on Saturday to assemble the arguments on the various products.

HELD ON TWO CHARGES.

Accuse Woman of Bigamy, Embellishing from Prospective Husband.

Accused of embezzlement of \$200, said to have been given by Jack Reich, 474 Adams street, to a woman in anticipation of their marriage, Marica Saban was held to answer yesterday by Justice Baird on that charge and on a charge of committing bigamy when the marriage was performed. She was prosecuted by Dep. Dist. Atty. Costello.

ADMIRAL RODMAN WILL
LEAVE FOR EAST SOON.

It was announced yesterday at Los Angeles Harbor that Admiral Hugh Rodman, commander of the Pacific Fleet, would leave May 9 for Washington, where he is due May 17 to sit on the Navy Selection Board.

Held as Thief
at Bedside of
Dying Fiancee.

Standing at the bedside of Ovella Nash, who is said to be in a dying condition at a sanatorium in Belvedere, A. F. Shafer was held to answer yesterday by Justice Zaring on charges of embezzlement and grand larceny and obtaining money under false pretenses. He is accused of inducing Miss Nash, to whom he was engaged, to give him diamonds valued at \$1500 and a diamond ring valued at \$600.

Dep. Dist. Atty. Turner adduced testimony indicating that the defendant, after he is said to have obtained practically all of the young woman's money and jewels, refused to provide her \$5 a week to help pay her expenses at the sanatorium. It was shown that the complaining witness had no money left to care for herself. When the court fixed bail \$5000 Shafer provided that amount and was released pending hearing in Superior Court.

Chinese "Flade,"
Takes No Chance;
Fires at Sleuth.

Believing that a Nick Harris detective was a hold-up man, Charles Chong, cook at the home of E. K. Pearce, 430 South Westmoreland avenue, yesterday afternoon armed himself with a huge revolver, fired two shots in the air to start matters going and then chased the detective seven blocks. At First street and Vermont avenue the Chinaman was disarmed by E. E. Johnson, a teacher in the Virgil-street school.

The police who investigated said that Chong, who was attacked by bandits who raided the Pearce home last Friday and escaped with \$20,000 worth of loot, became suspicious yesterday afternoon when he saw the Harris Agency man about the place and without making any inquiry, loaded up his revolver and started shooting.

"He flade, take no chance," was all that Chong would say when inquired of what he had been chasing a detective.

Held as Thief
at Bedside of
Dying Fiancee.

Standing at the bedside of Ovella Nash, who is said to be in a dying condition at a sanatorium in Belvedere, A. F. Shafer was held to answer yesterday by Justice Zaring on charges of embezzlement and grand larceny and obtaining money under false pretenses. He is accused of inducing Miss Nash, to whom he was engaged, to give him diamonds valued at \$1500 and a diamond ring valued at \$600.

Dep. Dist. Atty. Turner adduced testimony indicating that the defendant, after he is said to have obtained practically all of the young woman's money and jewels, refused to provide her \$5 a week to help pay her expenses at the sanatorium. It was shown that the complaining witness had no money left to care for herself. When the court fixed bail \$5000 Shafer provided that amount and was released pending hearing in Superior Court.

Chinese "Flade,"
Takes No Chance;
Fires at Sleuth.

Believing that a Nick Harris detective was a hold-up man, Charles Chong, cook at the home of E. K. Pearce, 430 South Westmoreland avenue, yesterday afternoon armed himself with a huge revolver, fired two shots in the air to start matters going and then chased the detective seven blocks. At First street and Vermont avenue the Chinaman was disarmed by E. E. Johnson, a teacher in the Virgil-street school.

The police who investigated said that Chong, who was attacked by bandits who raided the Pearce home last Friday and escaped with \$20,000 worth of loot, became suspicious yesterday afternoon when he saw the Harris Agency man about the place and without making any inquiry, loaded up his revolver and started shooting.

"He flade, take no chance," was all that Chong would say when inquired of what he had been chasing a detective.

Bullock's Argument Against Revocation of Bridge Ordinances

Bullock's is a dry goods store which was started in 1907 in the building located on the corner of Broadway and Seventh Street.

Back of this building is a blind alley which opens only on Seventh Street and is known as St. Vincent's Place.

It is used almost exclusively for delivering merchandise to the abutting stores.

The land in the alley is not owned by the City, but belongs to the abutting property owners, subject only to a right in the public to use it for passageway purposes.

Bullock's store grew and expanded as every healthy business should grow and expand, as Los Angeles has grown.

In 1911 it leased from the Hollenbeck Home Trustees the 70 feet of Broadway frontage just north of the corner building, tore down the old six-story building formerly on this property, and replaced it with a modern ten-story building.

In 1917 it leased the Pease building, located on Hill Street, across the alley from the Hollenbeck property.

In 1919 it leased the Eshman and Hart properties, located on Seventh and Hill streets.

Bullock's now occupies, under long term leases, the abutting property on both sides of the alley for a depth of more than 210 feet.

When Bullock's leased the Pease building in 1917, in order to connect this building with the Hollenbeck building, the City granted to Bullock's a permit to build an overhead bridge structure, 20 feet wide, across the alley, leaving a clear space 15 feet above the ground.

This first bridge was completed in 1918 and has been used by Bullock's ever since for the convenience of its customers and employees in going between these buildings without descending to the street.

It has never interfered in any way with the public's use of the alley. Come and see it.

The way this bridge has been maintained and lighted has made the alley a cleaner, lighter and safer place for the public's use.

In September, 1919, in order to connect up the original store building with the Eshman and Hart properties, another permit was granted to Bullock's to build a second bridge structure 60 feet wide, at the mouth of the alley.

The application for this second permit was made openly and publicly by Bullock's.

It was under consideration by the City authorities for more than a month.

In that time it was debated in public sessions of the Council and of the Committee on Public Safety.

It was publicly discussed in the newspapers.

The question of the City's right to charge a rental for this privilege was raised, and Bullock's then there proposed that a lease be made for a fixed amount at a rental, rather than a revocable permit.

The Council was advised by the City Attorney that the City had no legal right to charge a rental for the permit and must retain the right to revoke it at conditions ever changed so that the structure did interfere with the public's right.

These conditions have not changed.

After all this investigation and debate, the City granted this permit to Bullock's and thereby made what is and ought to be a valid and binding agreement between the City and Bullock's.

Bullock's began work on this structure in January, 1920, and has continued this work diligently since that time, but has been delayed by difficulties in procuring structural steel, beyond the control of Bullock's.

Vote "NO" on Both Propositions, Nos. 1 and 2
Vote "YES" on Proposition No. 3

Vote "NO"

On Propositions 1 and 2

1	Shall the proposed ordinance submitted by Initiative petition, entitled: "An ordinance revoking the permit granted to Bullock's, a corporation, its successors and assigns, to construct, operate and maintain an overhead structure or bridge over and across, and an underground conduit or basement connection under a portion of St. Vincent's Place, in the City of Los Angeles, by Ordinance No. 23,184 (New Series), approved September 22, 1919, and repealing said Ordinance No. 23,184 (New Series), be adopted?"	Yes		No	X
2	Shall the proposed ordinance submitted by Initiative petition, entitled: "An ordinance revoking the permit granted to Bullock's, a corporation, its successors and assigns, to construct, operate and maintain an overhead structure or bridge, and an underground conduit of two boxes, with pipe lines therein, over, across and under a portion of St. Vincent's Place in the City of Los Angeles, by Ordinance No. 24,141 (New Series), approved March 12, 1917, and repealing said Ordinance No. 24,141 (New Series), be adopted?"	Yes		No	X

Vote "YES" on Proposition 3

3	Shall the city of Los Angeles accept from Bullock's the sum of \$12,000 per annum and the completion and maintenance of the structure across St. Vincent's Place to connect the abutting property owned or controlled by Bullock's?	Yes	X	No	
---	---	-----	---	----	--

Bullock's was permitted to proceed under this permit for more than a year without objection from any source until it had expended or obligated itself for more than \$217,000.00 (the total cost of the structure will be \$250,000.00), when demand was made on the City authorities immediately to revoke the agreement they had made with Bullock's.

The question as to whether or not this agreement should be carried out is now submitted to the people.

This question should be determined on its merits and in a manner that will be for the mutual best interests of the City of Los Angeles and Bullock's, who are the only real parties in interest.

This structure is to be built and maintained in a manner that will not only NOT interfere with any of the rights or privileges of the public, but will be of a material and lasting benefit to the City by permitting Bullock's store to grow and expand until it has completed the improvement of all of the property on Seventh Street between Broadway and Hill Street with modern buildings which will be a credit to the City and will enable Bullock's to employ twice or three times the number of people now employed in that store.

When Bullock's store was opened in 1907 it had 400 employees, and in its first year paid \$14,000.00 in City and County taxes.

Its employees now number about 2000, and last year it paid in City and County taxes more than \$148,000.00.

What does the expansion of Bullock's mean to the City? Millions of dollars in new construction work.

Doubling the number of employees.
More City and County taxes.
Stabilizing of business property.
Progress and prosperity.

Bullock's confidently believes that these are the things that the people of Los Angeles want and will vote for.

Apparently, under our present laws, the City cannot legally make a lease to Bullock's of these privileges, for a rental, and the Legislature has been requested to enact a law allowing this to be done.

In the meantime Bullock's has offered voluntarily to pay or donate to the City the sum of \$12,000.00 a year while it maintains this structure, which in 34 years (life of Bullock's lease on corner) would amount to \$408,000.00, besides taxes on the structure itself.

The Los Angeles Realty Board, at the request of the Council, appraised the rental value of the second bridge at \$5370.00 a year, which Bullock's immediately offered to pay, but the sum of \$12,000.00 a year was arbitrarily suggested by a committee of representative citizens with the idea of settling all controversy.

In the heart of Chicago, Marshall Field pays only \$23,000.00 a year for a structure about FIVE TIMES as large as this one, over the alley between his buildings.

To vote "Yes" on these propositions is to vote for the revocation of these permits, the removal of these structures, and against the expansion of this store.

To vote "No" on these propositions will mean the upholding of civic honor, encouraging commercial expansion, increasing taxable property, assuring the payment of this \$12,000.00 annually to the City—Progress and Prosperity. Greater Los Angeles, Straight Ahead.

Remnant Friday at Bullock's Brings Forth Unusual Values

Sportswear

The Women of the Out-of-Doors will find some exceptional Remnant Day offerings in Bullock's Sportswear Store. Skirts, Hats, Blouses, Shirts and Shoes are among the items marked specially low for a quick disposal on Remnant Friday. Tomorrow's the day to save! Bullock's Seventh Street Building.

24,000 Women's Handkerchiefs

10c

Every Handkerchief made to be sold at much more than 10c! There are white handkerchiefs with colored scalloped edges or with fancy colored embroidered corners. Some have tape and corded borders with colored or white corners. Then there are Sports Handkerchiefs with checks, plaids, and polka dots. These are in various colors such as pink, blue, yellow, etc. Some are in plain solid colors with embroidered corners—others with plain borders. There are 2000 dozen Handkerchiefs here! At 10c each they should leave Bullock's long before Store Closing—Friday—Tomorrow! They're on Bullock's First Floor.

Yardage

In those Sections which handle materials by the yard—such as Cotton, Silk and Woolen materials—Drapery Fabrics—Laces—Ribbons etc., there have accumulated thousands upon thousands of odd pieces and short lengths. The astonishingly low prices given these pieces should hurry them away from Bullock's—on Remnant Day—tomorrow!

50 Blouses at \$2.95 Each

Bullock's Blouse Section makes an offering small in quantity but great in value! These Blouses are well made of good quality Crepe de Chine and Georgette. They are trimmed with realilet and Val. laces. Some have the popular roll collars with the vest effect; long sleeves with well finished cuffs.

A few Over-Blouses are included in the lot. These are in the Tie-Back styles. One model is embroidered with yellow yarn on flesh colored Crepe—and has string belt tying at the side.

There are but 50 of these Blouses to be offered at \$2.95 each! To make certain of sharing—an early trip to Bullock's Third Floor—on Friday morning—is advisable!

50 Special Sweater Values

It isn't very often that one can get a splendid Tricotee Sweater at \$12.50—yet that's the price of some in Bullock's Sweater Section on Remnant Friday! Of course they're very specially marked! Various sizes for women.

Then there are some desirable Wool Sweaters priced from \$3.95 to \$7.95—and these prices, also, are far below the regular markings on Sweaters of such character. Some are in the popular Tuxedo style—others have roll collars—and here and there one finds a Slip-On.

A few Scarfs are included in this group of 50 Garments—and are priced signally low at \$4.95 and \$6.95. Expertly made of high grade woolen yarns.

Friday the Day—on Bullock's Fourth Floor.

Silk

Underwear

Twenty-five pieces—that's all, just 25 pieces of high grade silk underwear for women have been given some remarkably low prices for Remnant Friday at Bullock's. Women should find this a splendid opportunity to provide that long desired pair of Silk Pajamas, that Silk Gown or Camisole or one of these exquisite French Chemises. Bullock's Fourth Floor.

37 Crepe Kimonos at \$2.45

A Friend-Making offering in the Negligee Section at Bullock's! A Remnant Day Price, indeed, for it's far below what one would ordinarily pay for Kimonos such as these! They are well made of "Serpentine" Crepe, are ribbon trimmed and flow embroidered. Some in rose Crepe—others of lavender. One style has shirred waist line with elastic belt—and pockets; another has embroidered collar and ribbon belt. Sizes 36 to 44 are included. Every Kimono desirable!

There are but 37 of these Kimonos at \$2.45. The first 37 Women to see them should buy them! They go on sale Friday, tomorrow at 9 a.m. Just "a word to the Wise." You'll find them on the Bridgeway of Bullock's Third Floor.

China

and Pottery

The Balcony of Bullock's Hill Street Building—provides a means of saving substantially on odd pieces of Glassware, China and Pottery—tomorrow, Remnant Friday. Because of slight imperfections on some of the pieces, they have been given new, low markings for Friday's selling. The opportunity to save is not to be overlooked—tomorrow, Friday.

Remnant Values for Boys and Girls

24 Lingerie Dresses \$5.00

For Juniors and Intermediates of 12 to 17 years. The Remnant Friday offering from the Section that Bullock's devotes exclusively to the needs of High School Girls.

Splendid White Dresses that were made with the intention of selling for a great deal more than \$5.00. Because of the limited number—the broken sizes and styles—they're featured at this Friend-Making price—Friday, tomorrow!

Some are slightly soiled from handling—but the savings realized will more than pay for several launderings. Remember—there are but 24 Dresses—tomorrow—on Bullock's Fourth Floor.

34 Girls' Sweater Specials

Twenty-six Fiber Sweaters for Girls of 2 to 5 years are to be priced \$4.95. Eight Fiber Sweaters for Girls of 6 to 10 years are to be offered at \$6.95. In both cases the price is a specially low one for Remnant Friday!

Some have very slight imperfections; others are slightly soiled. Because of this and on account of the very limited number they're priced away, way below their regular markings!

Tuxedo and Coat models are included; colors include coral, pink, turquoise and white; both plain and fancy weaves; sashes and belts.

Mothers should be quick to take advantage of this opportunity. Tomorrow—Fourth Floor.

Boys' Wash

Trousers, 85c

A special Bullock purchase of 35 dozen high grade Wash Trousers—at price concessions which made possible this Remnant Friday marking.

Strongly made of Linen, Galatea and Gabardine; Straight Knee and Sailor Pants styles; sizes for Boys of 3 to 10 years. Ideal Trousers for Summer wear—priced surprisingly low—Friday on Bullock's Fifth Floor.

50 Chambray Rompers at 95c

Just one of the three Remnant Day Values in Bullock's Infants' Section! These are unusually well made of dainty chambray in blue and tan; they have low necklines and short sleeves; in sizes for Children of 5 and 6 years only; unusual values at 95c each.

100 Infants' Vests at 95c—are of Silk-and-Wool—also Wool and Cotton; they're the wrapper style and specially low priced for Remnant Friday at 95c each.

48 Little Boys' Suits at \$1.95 each; in 2-piece models; made of strong materials to withstand real "boy wear." In blue, tan and white; sizes are for Boys of 2 to 4 years. These items on sale Friday, tomorrow—on Bullock's Fourth Floor.

Corduroy

Sports Hats, 75c

Bullock's Millinery Section for Girls doesn't always offer special values on Remnant Friday—but here are some "Wonders!"

11 Corduroy Sports Hats of rose, and white at 75c each; 23 Button-On Piques, specially attractive, at 75c each; and 33 white Duck hats—also at 75c each. They're specially priced for tomorrow—Fourth Floor.

Women's Suits of Jersey—Tweeds and Mixtures, \$14.75

Thirty-one of these popular Suits to be offered at this substantially lower marking—tomorrow, Remnant Friday—in the Women's Garment Section at Bullock's.

No description will be attempted. Let it suffice that the regular markings on these Suits is far above \$14.75! The sizes are broken. The possible saving makes a search for one's size among these Suits—very much worth while!

Remember—there are but 31 of them—tomorrow, Friday—on Bullock's Third Floor.
